North London Waste Authority

STATEMENT OF RESPONSIBILITIES FOR THE STATEMENT OF ACCOUNTS

The AUTHORITY'S responsibilities

The Authority is required:

- to make arrangements for the proper administration of its financial affairs and to secure that one of its officers has the responsibility for the administration of those affairs as the Chief Finance Officer. For the North London Waste Authority that officer is the Financial Adviser; and
- to manage its affairs to secure economic, efficient and effective use of resources and safeguard its assets.

THE FINANCIAL ADVISER'S RESPONSIBILITIES

The Financial Adviser is responsible for the preparation of the Authority's statement of accounts which is required by the CIPFA/LASAAC Code of Practice on Local Authority Accounting in the United Kingdom (the Code of Practice) to present fairly the financial position of the Authority and of the Group at 31 March 2008 and the income and expenditure of the Authority and of the Group for the year 2007/2008. In preparing this statement of accounts, the Financial Adviser has:

- selected suitable accounting policies and applied them consistently;
- made judgements and estimates that were reasonable and prudent;
- prepare the financial statements on the going concern basis unless it is inappropriate to presume that the Authority will continue in business; and
- complied with the Code of Practice.

The Financial Adviser has also:

- kept proper accounting records which were up to date; and
- taken reasonable steps for the prevention and detection of fraud and other irregularities.

CERTIFICATION BY THE FINANCIAL ADVISER

The accounts which follow have been prepared in accordance with the requirements of Regulation 7 of the Accounts and Audit Regulations 2003, issued under the Audit Commission Act 1998 and, except where specifically stated, in accordance with all recognised statutory requirements and codes of practice applicable to local authorities.

I certify that the statement of accounts presents fairly the financial position of the Authority and of the Group as at 31 March 2008 and the income and expenditure of the Authority and of the Group for the year then ended.

Mike O'Donnell, CPFA

Financial Adviser 16th June 2008

CHAIRMAN'S APPROVAL OF STATEMENT OF ACCOUNTS

This draft Statement of Accounts was presented to the North London Waste Authority at its meeting on 25th June 2008, and was approved by resolution of the Authority.

Councillor

Chairman of the North London Waste Authority 25th June 2008

INDEPENDENT AUDITORS' REPORT TO THE MEMBERS OF NORTH LONDON WASTE AUTHORITY

Opinion on the financial statements

We have audited the financial statements of North London Waste Authority and its Group for the year ended 31 March 2008 under the Audit Commission Act 1998, which comprise the Income and Expenditure Accounts, the Statements of movement in General Fund Balances, the Statements of Total Recognised Gains and Losses, the Balance Sheets, the Cash Flow Statement the Statements, both for the Authority and the Group, the Statement of Total Movements in Reserves for the Authority, and the Statement of Accounting policies of the Authority and the related notes (1 to 23 for the Authority and 1 to 5 for the Group). These financial statements have been prepared under the accounting policies set out within them.

This report is made solely to North London Waste Authority in accordance with Part II of the Audit Commission Act 1998 and for no other purpose, as set out in paragraph 36 of the Statement of Responsibilities of Auditors and of Audited Bodies prepared by the Audit Commission. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the company and the company's members as a body, for our audit work, for this report, or for the opinions we have formed.

Respective responsibilities of the Chief Finance Officer and auditors

The Chief Finance Officer's responsibilities for preparing the financial statements in accordance with applicable laws and regulations and the Statement of Recommended Practice on Local Authority Accounting in the United Kingdom 2007 are set out in the Statement of Responsibilities.

Our responsibility is to audit the financial statements in accordance with relevant legal and regulatory requirements and International Standards on Auditing (UK and Ireland).

We report to you our opinion as to whether the financial statements present fairly the financial position of the Authority in accordance with applicable laws and regulations and the Statement of Recommended Practice on Local Authority Accounting in the United Kingdom 2007.

We review whether the statement on internal control reflects compliance with CIPFA's guidance "The Statement on Internal Control in Local Government: Meeting the Requirements of the Accounts and Audit Regulations 2003" issued in April 2004. We report if it does not comply with proper practices specified by CIPFA or if the statement is misleading or inconsistent with other information we are aware of from our audit of the financial statements. We are not required to consider, nor have we considered, whether the statement on internal control covers all risks and controls. We are also not required to form an opinion on the effectiveness of the Authority's corporate governance procedures or its risk and control procedures.

We read other information published with the financial statements, and consider whether it is consistent with the audited financial statements. This other information comprises only the Explanatory Foreword. We consider the implications for our report if we become aware of any apparent misstatements or material inconsistencies with the financial statements. Our responsibilities do not extend to any other information.

Basis of audit opinion

We conducted our audit in accordance with the Audit Commission Act 1998, the Code of Audit Practice issued by the Audit Commission and International Standards on Auditing (UK and Ireland) issued by the Auditing Practices Board. An audit includes examination, on a test basis, of evidence relevant to the amounts and disclosures in the financial statements. It also includes an assessment of the significant estimates and judgments made by the Authority in the preparation of the financial statements, and of whether the accounting policies are appropriate to the Authority's and the Group's circumstances, consistently applied and adequately disclosed.

We planned and performed our audit so as to obtain all the information and explanations which we considered necessary in order to provide us with sufficient evidence to give reasonable assurance that the financial statements are free from material misstatement, whether caused by fraud or other irregularity or error. In forming our opinion we also evaluated the overall adequacy of the presentation of information in the financial statements.

INDEPENDENT AUDITORS' REPORT TO THE MEMBERS OF NORTH LONDON WASTE AUTHORITY (CONTINUED)

Opinion

In our opinion the financial statements present fairly, in accordance with applicable laws and regulations and the Statement of Recommended Practice on Local Authority Accounting in the United Kingdom 2007, the financial position of the Authority and its Group as at 31 March 2008 and its income and expenditure for the year then ended.

Conclusion on arrangements for securing economy, efficiency and effectiveness in the use of resources

Authority's Responsibilities

The authority is responsible for putting in place proper arrangements to secure economy, efficiency and effectiveness in its use of resources, to ensure proper stewardship and governance, and to regularly review the adequacy and effectiveness of these arrangements.

Under the Local Government Act 1999, the authority is required to prepare and publish a best value performance plan summarising the authority's assessment of its performance and position in relation to its statutory duty to make arrangements to ensure continuous improvement in the way in which its functions are exercised, having regard to a combination of economy, efficiency and effectiveness.

Auditor's Responsibilities

We are required by the Audit Commission Act 1998 to be satisfied that proper arrangements have been made by the authority for securing economy, efficiency and effectiveness in its use of resources. The Code of Audit Practice issued by the Audit Commission requires us to report to you our conclusion in relation to proper arrangements, having regard to relevant criteria specified by the Audit Commission for other local government bodies. We report if significant matters have come to our attention which prevent us from concluding that the authority has made such proper arrangements. We are not required to consider, nor have we considered, whether all aspects of the authority's arrangements for securing economy, efficiency and effectiveness in its use of resources are operating effectively.

We are required by section 7 of the Local Government Act 1999 to carry out an audit of the authority's best value performance plan and issue a report:

- certifying that we have done so;
- stating whether we believe that the plan has been prepared and published in accordance with statutory requirements set out in section 6 of the Local Government Act 1999 and statutory guidance; and
- where relevant, making any recommendations under section 7 of the Local Government Act 1999.

Conclusion

We have undertaken our audit in accordance with the Code of Audit Practice and we are satisfied that, having regard to the criteria for other local government bodies specified by the Audit Commission and published in August 2005, in all significant respects, North London Waste Authority made proper arrangements to secure economy, efficiency and effectiveness in its use of resources for the year ending 31 March 2008.

**INDEPENDENT AUDITORS' REPORT TO THE MEMBERS OF NORTH LONDON
WASTE AUTHORITY (CONTINUED)**

Best Value Performance Plan

We issued our statutory report on the audit of the authority's best value performance plan for the financial year 2006/07 on 30 November 2007. We did not identify any matters to be reported to the authority and did not make any recommendations on procedures in relation to the plan.

Certificate

We certify that we have completed the audit of the accounts in accordance with the requirements of the Audit Commission Act 1998 and the Code of Audit Practice issued by the Audit Commission.

September 2008

EXPLANATORY FOREWORD BY THE FINANCIAL ADVISER

INTRODUCTION

The purpose of this foreword is to provide an easily understandable guide to the most significant matters reported in the Authority's accounts which have been prepared in accordance with the standard format for local authority accounts recommended by the Chartered Institute of Public Finance and Accountancy (CIPFA). They comprise:

Income and expenditure account: This summarises the Authority's income and expenditure for the year, the amount of funding from levies on constituent boroughs and the extent to which revenue balances have been increased or decreased.

Balance sheet: This shows the balances and reserves at the Authority's disposal at the year-end, together with the net current assets employed in its operations and information on the fixed assets held.

Cash flow statement: This summarises the cash movements arising from both revenue and capital transactions with third parties.

Statement of total movements in reserves: This brings together all the Authority's recognised gains and losses in the year.

Group accounts: The summarised group accounts show in aggregate the income and expenditure and assets, liabilities and reserves of the group comprising the Authority and the Authority's share of LondonWaste Ltd.

REVIEW OF THE YEAR AND CURRENT DEVELOPMENTS

Following changes by the Government in February and March 2006 to the default arrangements for apportioning the levy, and termination of the statutory recycling credit scheme, 2007/08 was the second year of a three-year transition to a tonnage based levy. For the NLWA, the levy comprises two elements, a 'household waste' element and an 'other' costs element. In 2007/08 the household waste element was apportioned two-thirds tonnage and one-third council tax base and for 2008/09 the levy has been apportioned entirely on a tonnage basis. The 'other' costs element will continue to be apportioned on a council tax basis. To smooth the transition to a tonnage based levy the Authority also decided to introduce a local recycling credit scheme that would be phased out in line the transitional arrangements for the move to a tonnage based levy.

Compared with 2006/07, there has been a further reduction in the amount of residual waste entering the residual waste stream. 2007/08 tonnages have reduced by 30,286 tonnes compared with 2006/07 tonnage levels, i.e. a reduction from 777,028 tonnes to 746,742 tonnes. This would appear to be primarily due to the recycling and composting activity of our constituent boroughs. Provisional figures from the boroughs indicate that the levels of waste recycled or composted have increased by a further 24,000 tonnes to 191,000 tonnes in 2007/08. Allowing for the boroughs' recycling and composting activity suggests that the underlying growth in the waste stream has reduced by 0.4% in 2007/08.

Although the amount of residual waste coming to the Authority for final disposal is reducing, the amount of separated wastes that constituent councils have sent to the Authority have increase from 39,964 tonnes in 2006/07 to 56,857 tonnes in 2007/08. This trend will continue as borough recycling and composting contracts come to an end, and future treatment facilities are provided through the NLWA.

With decisions on the levy apportionment now effectively taken the Authority was able to give further consideration to the options for changing the non-household charging arrangements and this led, following agreement with constituent councils, to a method of calculation on 1 April 2008 based upon the number commercial agreements between the boroughs and their trade waste customers.

During the course of the year the Authority appointed a Procurement Director to lead a team that has now embarked on what will probably be the largest waste procurement project in the UK.

EXPLANATORY FOREWORD BY THE FINANCIAL ADVISER (CONTINUED)

The financial impact of implementing the north London Joint Waste Strategy will add significantly to the costs of waste management over the coming years and therefore the Authority has been active to ensure that constituent councils have been and will continue to be kept informed of developments. The next three to four months will be critical for the Authority as there are wide-ranging issues that must be resolved before the Authority can seek to obtain financial support under the Government's Private Finance Initiative for waste.

The Authority continues to hold an equity interest in LondonWaste Ltd. In 2005 the Company successfully completed a £26m refurbishment programme to enable it to comply with the Waste Incineration Directive (WID). The new emission controls and boiler modifications have been very effective. Although the incineration level of the facility has yet to return to pre-WID levels, an incineration level of c. 513,000 was achieved in 2007. In view of the need to invest in the WID refurbishment project no dividend has been paid for 2007.

The Landfill Allowance Trading Scheme (LATS) commenced on 1 April 2005 and is a Government initiative aimed at reducing the amount of biodegradable waste sent to landfill. The Government issued the Authority with allowances for each year up until 2019/20. Although the Authority should enjoy a favourable trading position up to 2009/10 (the Authority benefits from a rising LATS Allowance allocation up to 2009/10) the landfill avoidance targets become more challenging, particularly just before the NLWA/LondonWaste Ltd contract comes to an end in December 2014 and thereafter. Although the Authority continues to use fewer allowance and therefore has in the region of 232,000 surplus allowances at 31 March 2008, other waste disposals are also in surplus and therefore allowances in the short term have little value. Although the surplus allowances have a notional book value of £1.158m, the actual value will not crystallise until the allowances are sold.

By the time of the 2008/09 budget and levy meeting in February I was able to advise the Authority that it should have revenue balances of £3.614m available at year-end to assist with the funding of the Authority's 2008/09 budget. In the final outturn, actual balances are £4.451m, i.e. an increase of £1.287m. Subject to the 2008/09 budget remaining sufficiently robust to fund its in-year activities the additional balances should be available to assist with the funding of the 2009/10 budget. However, this assumption could be tested as in the closing days of 2007/08 the Authority received notice of a rent review for the Hendon Rail Transfer Station.

Last year I indicated that the Chancellor of the Exchequer had announced a stepped change in standard rate of landfill tax between 2008/09 and 2010/11, i.e. an increase of £8 per tonne per year. The current rate is now £32 per tonne. The cost of recycling and composting is therefore for the most part considerably lower in cost than sending waste to landfill. In his 2008 Budget the Chancellor suggested that the standard rate of tax was likely to continue to rise beyond 2010/11 and therefore waste management costs seem set to rise at above inflation levels for many years to come.

2007/8 OUTTURN

The 2007/8 net revenue budget for the year was originally agreed at £48.593m to be financed by a levy of £34.901m, charges to boroughs for non-household waste of £8.884m and the use of estimated revenue balances of £4.808m. The budget was subsequently revised to £44.891m, a reduction of £3.702m. Allowing for higher than expected revenue balances of £0.312m brought forward from 2006/07 and a reduction in forecast income from non-household waste charges of £0.850m the Authority was forecast to have revenue balances of £3.164m as at 31 March 2008. The accounts show an actual general fund balance of £4.451m. The final outturn also allows for the financial effect on the Authority of the Landfill Allowance Trading Scheme (LATS).

North London Waste Authority

EXPLANATORY FOREWORD BY THE FINANCIAL ADVISER (CONTINUED)

Final outturn compared with budget:

	Original budget 2007/8 £'000	Revised estimate 2007/8 £'000	Final outturn 2007/8 £'000
Gross expenditure	55,240	51,827	47,461
Non-household waste	(8,884)	(8,034)	(8,007)
Rents	(83)	(86)	(84)
LATS grant	(6,683)	(5,948)	(1,654)
Gross income	(15,650)	(14,068)	(9,745)

Opening balance	(4,808)	(5,120)	(5,120)
Deficit for the year	4,808	1,956	669
Closing balance	<u>-</u>	<u>(3,164)</u>	<u>(4,451)</u>

A fuller explanation of the more significant variances can be found in the notes to the accounts.

North London Waste Authority

ANNUAL GOVERNANCE STATEMENT FOR THE NORTH LONDON WASTE AUTHORITY

1. Scope of Responsibility

The North London Waste Authority is responsible for ensuring that its business is conducted in accordance with the law and proper standards, and that public money is safeguarded and properly accounted for, and used economically, efficiently and effectively. The North London Waste Authority also has a duty under the Local Government Act 1999 to make arrangements to secure continuous improvement in the way in which its functions are exercised, having regard to a combination of economy, efficiency and effectiveness.

In discharging this overall responsibility, the North London Waste Authority is also responsible for putting in place proper arrangements for governance of its affairs, facilitating the effective exercise of its functions, and which include arrangements for the management of risk.

2. The Purpose of the System of Internal Control

The governance framework comprises the systems and processes, and culture and values, by which the authority is directed and controlled. It enables the authority to monitor the achievement of its strategic objectives and to consider whether those objectives have led to the delivery of appropriate, cost-effective services.

The system of internal control is a significant part of the framework and is designed to manage risk to a reasonable level. It cannot eliminate all risk of failure to achieve policies, aims and objectives and can therefore only provide reasonable and not absolute assurance of effectiveness. The system of internal control is based on an ongoing process designed to identify and prioritise the risks to the achievement of the North London Waste Authority's policies, aims and objectives, to evaluate the likelihood of those risks being realised and the impact should they be realised, and to manage them efficiently, effectively and economically.

The governance framework has been in place within the North London Waste Authority for the year ended 31 March 2008 and up to the date of approval of the annual report and statement of accounts. The Authority formally agreed its approach to strategic risk management in April 2005 and have subsequently undertaken regular reviews. This included agreement of the Authority's Risk Register and an action plan to achieve delivery of a risk aware culture within the Authority and to embed the new approach within the Authority's planning processes and its control systems. We reviewed this and agreed the revisions to the risk register at our meeting in June 2008.

3. The Governance Framework

The key elements of the governance framework in which the Authority functions can be summarised as follows:

- The Authority has a clearly defined set of objectives in terms of service delivery and this is reflected in its contract with LondonWaste Ltd.
- The Authority and its constituent councils have been working in partnership to develop the North London Joint Waste Strategy. This is a major new initiative that will assist the Authority in reviewing its objectives and defining its overall aims. In partnership with its seven constituent boroughs the Authority has established a Strategy Implementation Board at Member level that will provide the framework to monitor and guide the implementation of the Strategy. The implementation phase is now

North London Waste Authority

proceeding. Under the lead of a Project Sponsor and Procurement Director the Authority has established an in-house team of experienced people to work with external advisers with a view to securing appropriate cost effective waste management services over the next 30 years. Working in partnership with its constituent councils the partners have established key working groups of senior officers and Members to ensure that well informed decisions are made at key stages of the procurement process.

- Policy and decision-making are managed and controlled within a strong well-established framework. The Authority's standing orders set out in detail how the authority operates, how decisions are made and the procedures to be followed to ensure efficiency, transparency and accountability. Political and management control is exercised through the Authority and the Advisers who work to defined and established processes.
- Compliance with policies, laws and regulations is dealt with through a range of written rules and procedures which are regularly reviewed and updated. These include Standing Orders relating to the Authority, Standing Orders relating to Committees, Financial Standing Orders, and Contract Standing Orders.
- The Authority is also able to benefit from the rules and procedures set in place by its Lead Boroughs. Officer responsibilities and actions are controlled through Schemes of Officer Delegation.
- The effective and efficient use of resources and the securing of continuous improvement is achieved through a range of review processes but primarily the North London Joint Waste Strategy which is also at the centre of the Authority's Best Value review process.
- The financial management of the authority is organised through a wide range of well-established processes and procedures which deliver strong financial control arrangements. The Authority has in place a detailed strategic budget planning process which is supported by comprehensive Financial Standing Orders which have recently been subject to a review. Members receive and consider detailed financial information on a regular basis and this facilitates the political decision making process.
- Other features of the financial control environment include the production and review of a medium term financial forecast. The Authority also benefits from the activities of the London Borough of Camden's Internal Audit Division which provides assurances to management that the Council's – and therefore the NLWA's – control systems are adequate, effective and operating as intended and investigates all identified or suspected cases of fraud/irregularity throughout the Council. The work of internal audit is to co-ordinate with that of the Council's – and the Authority's – external auditor.
- Performance management within the authority is considered through a range of review arrangements including external/internal audit reviews, annual reports and the detailed reporting of national and local performance indicators.

4. Review of Effectiveness

The North London Waste Authority has responsibility for conducting, at least annually, a review of the effectiveness of its governance framework including the system of internal control. The review of the effectiveness of the system of internal control is a significant part of the framework and is informed by the work of the internal auditors and the executive managers within the authority who have responsibility for the development, maintenance and ongoing assurance in respect of the internal control environment covering their individual areas of responsibility. This is also supported by reviews conducted by the external auditors.

North London Waste Authority

As services are provided through the Lead Boroughs of Camden and Haringey the Authority has also benefited from reviews undertaken by those authorities in providing corporate and service-based assurance on the overall system of internal control in operation.

The Authority has in place an action plan to deliver the strategic approach to managing strategic risk particularly in relation to implementation of the procurement project.

5. Matters for Future Action

Following the review work undertaken in relation to its system of internal control for 2007/8 the Authority accepts that there is a need to keep under review its controls and risk management arrangements and to take action where appropriate. This will include training to members and officers and the ongoing review of the Risk Register, including the continued development of a separate detailed procurement risk register that will be able to track and accurately manage the identified risks associated with a large scale procurement project.

6. Signed Agreement

We have been advised of the arrangements that are in place to ensure that an effective system of governance exists in the Authority and of the plan to further enhance our governance arrangements.

Councillor
Chairman of the NLWA

Moirra Gibb
Clerk to the NLWA

STATEMENT OF ACCOUNTING POLICIES

The accounts have been prepared in accordance with the CIPFA/LASAAC Code of Practice on Local Authority Accounting in the United Kingdom 2007 : A Statement of Recommended Practice (the SORP), which has been approved by the Accounting Standards Board.

Capital receipts

Capital receipts are credited to the Usable Capital Receipts Reserve when received. They are only available to fund future capital expenditure.

Leases

Expenditure on operating leases is charged to the income and expenditure account in the period to which it relates.

Pension costs

In December 1994 all of the staff of the Authority transferred to LondonWaste Ltd. However, the Authority continues to be responsible for the payment of employer borne pension costs (annual compensation) of former retired employees. The Authority has previously decided that this should continue to be paid on a pay-as-you-go basis. However, in accordance with Financial Reporting Standard 17 – retirement costs (FRS 17), the liability has been reflected in the Authority's Balance Sheet.

Employer-borne pension costs attributable to staff employed by the London Boroughs of Camden and Haringey for work performed on behalf of the Authority are included in the support service recharges made by these boroughs to the Authority.

Fixed Assets

Land and buildings shown in the balance sheet represent the residual non-operational assets held by the Authority. Depreciation is not charged on non-operational assets. Fixed assets are valued at five-yearly intervals in accordance with the Statements of Asset Valuation Practice and Guidance Notes issued by the Royal Institute of Chartered Surveyors, although material changes to asset valuations are adjusted in the interim period, as and when they occur.

Investments

The Authority's investment in LondonWaste Ltd is held at the lower of cost and net realisable value.

Reserves

An earmarked reserve has been established to fund future recycling initiatives.

Group accounts

The authority has prepared group accounts to provide greater transparency and understanding of the Authority's shareholding in LondonWaste Ltd. These are presented as supplementary information to the primary financial statements in accordance with the SORP. More details are given in the introduction to the group accounts.

Members' allowances

Members of the authority receive allowances from the borough that they represent. No allowances are payable by the Authority.

Landfill Allowance Trading Scheme (LATS)

The Waste and Emissions Trading Act 2003 places a duty on waste disposal authorities (WDAs) to reduce the amount of biodegradable municipal waste (BMW) that is disposed to landfill. The scheme came into effect on 1 April 2005 and therefore the 2007/8 Accounts record LATS transactions in accordance CIPFA guidance: Local Authority Accounting Panel Bulletin No. 64.

STATEMENT OF MOVEMENT IN GENERAL FUND BALANCE

Year ended 31 March 2008

The Income and Expenditure Account shows the Authority's actual financial performance for the year. The General Fund Balance compares the Authority's spending against the levy income that is raised for the year, taking into account the use of reserves built up in the past and contributions to reserves earmarked for future expenditure. This reconciliation statement summarises the difference between the outturn on the Income and Expenditure Account and the General Fund Balance.

NOTES TO THE ACCOUNTS

1. AGENT BOROUGH SERVICES AND USE OF EXTERNAL CONSULTANTS

Agent borough services represents charges made by constituent boroughs providing the following services. This cost centre also includes external audit costs of £25,890 and £39,993 in respect of the use of external consultants, as noted below:

Camden	Haringey
Financial services	Technical and client support services
Clerk and committee services	Valuation services
Legal services	

Waltham Forest

Planning Advice services

2. WASTE STRATEGY AND CONTRACTS GROUP

The Waste Strategy and Contracts Group is responsible for monitoring the Authority’s contract arrangements, providing policy and strategic advice, as well as liaising with the constituent boroughs on day to day waste disposal issues.

3. TRANSPORT, DISPOSAL AND TREATMENT

Transport and disposal is the largest of the Authority’s expenditure budgets and provides for the transport and final disposal of waste arising in the Authority’s area and the treatment of separated wastes delivered to the Authority for recycling and composting.

Contract	2008 £’000	2007 £’000

4. RECYCLING CREDITS

The Authority operates a local scheme for the payment of recycling credits to boroughs and third parties in accordance with the Environmental Protection Act 1990 as amended. The cost to the Authority in 2007/8 of

NOTES TO THE ACCOUNTS

£2.966m (2006/7: £5.525m) is based on an estimate of £3.266m less an adjustment to last year's estimate by £0.300m. This includes a payment on account to constituent boroughs of £0.132m for 2007/8 and a creditor of £3.042m to cover the estimated cost of the final claims for the final year of the NLWA local recycling credit scheme. Final claims will be paid in 2008/9 once received and verified by the Waste Strategy and Contracts Team. The amount paid to third parties in 2007/08 was £0.092m.

5. NON-HOUSEHOLD WASTE

The Authority operates a separate charging arrangement for non-household waste in accordance with s52 (9) of the Environmental Protection Act 1990. The scheme came into effect on 1 April 1996, and as a consequence, only household waste and fixed costs of meeting the Authority's waste disposal obligations are funded from the levy.

Constituent councils make payments on account to the Authority on a monthly basis based on estimated levels of non-household waste. At the end of the year an additional amount is charged or overpayment repaid based on actual tonnage levels and the actual marginal cost of disposal.

Borough	Original estimate		Actual charges	
	Tonnes	£	Tonnes	£
Barnet	19,539	1,113,137	18,555	987,311
Camden	34,066	1,940,740	32,244	1,715,703

Haringey	21,107	1,202,466	20,131	1,071,171
Islington	25,773	1,468,288	23,961	1,274,965
Waltham Forest	19,308	1,099,977	17,724	943,094
	<u>155,956</u>	<u>8,884,813</u>	<u>150,495</u>	<u>8,007,839</u>

6. RENTS

During the year the Authority received rental income from LondonWaste Ltd in respect of the Hornsey Street and Ashburton Grove Waste Transfer Stations. Hornsey became the replacement facility for Ashburton Grove in July 2004. The rent is set at the market rate, however, the increase in rent at Hornsey Street (determined by reference to the rent of the Ashburton facility as adjusted for revisions under the terms of the Ashburton lease) is recoverable from the Authority by LondonWaste Ltd as an additional cost post-vesting, i.e. the net effect is to restrict the rental income from LondonWaste Ltd to the rental income due under the original Ashburton lease.

7. DIVIDEND INCOME

The Authority receives dividend income from LondonWaste Ltd, a joint venture company in which it holds 50% of the shares. The profit for year after taxation was £3.828m (2006: £4.148m). The directors did not recommend a dividend due to the need to conserve reserves to assist with the funding of the Waste Directive Incineration refurbishment works and to fund the future development of the business.

NOTES TO THE ACCOUNTS

8. LEVY

The levy on constituent boroughs of £34.901m was agreed at the Budget Meeting on 7 February 2007 and represents, after allowance for the use of revenue balances, the net cost of meeting the Authority’s statutory responsibility for the disposal of household waste. The levy has been apportioned in accordance with the transitional default arrangements contained in the Joint Waste Disposal Authorities (Levies) (England) Regulations 2006.

Borough	2008 %	2007 %	2008 £’000	2007 £’000
Barnet	19.77	20.62	6,901	6,851
Camden	13.68	13.98	4,775	4,646
Enfield	15.58	16.21	5,439	5,386
Hackney	12.64	11.36	4,410	3,775
Haringey	13.71	13.43	4,785	4,463

9. TANGIBLE FIXED ASSETS

	Non- operational £’000
Valuation at net book value	
At 1 April 2007 and 31 March 2008	<u>12,441</u>

During the year ended 31 March 1995 the Authority’s operational assets were vested in LondonWaste Ltd and the Authority’s outstanding debt was repaid. The authority now only holds the following non-operational assets which are valued at open market value:

Asset	Location
Waste transfer station and yard (999 year lease) – See also note 21	Hornsey Street, Islington
Residual freehold interest in residential properties sold under the Right to Buy legislation	Picketts Lock Lane, Edmonton

These assets are revalued every five years on the basis of open market value in accordance with the Statements of Asset Valuation Practice and Guidance Notes issued by the Royal Institution of Chartered Surveyors. The valuations have been provided by CB Hillier Parker in the case of Hornsey Street (4 April 2003), and Wilks Head & Eve in the case of Picketts Lock Lane (31 March 2005).

NOTES TO THE ACCOUNTS

10. INVESTMENTS – LONDONWASTE LTD

	2008	2007
	£'000	£'000
Cost	21,706	21,706

The Authority holds a 50% interest in the shares of LondonWaste Ltd, a company registered in England and Wales engaged in the business of waste disposal. The company is a joint venture with Sita UK Ltd who holds the remaining 50%. The Authority has no obligation to meet accumulated deficits or losses of LondonWaste Ltd.

This balance represents the original cost of the 21,705,937 shares held by the Authority. The shares are fully paid and have a nominal value of £1 each. Details of the net assets and results of the company are given in Note 2 to the group accounts.

11. FIXED ASSET RESTATEMENT ACCOUNT (FARA)

	2008
	£'000
Balance at 1 April 2007	12,441
Transfer to Capital Adjustment Account	(12,441)
Balance at 31 March 2008	Nil

This balance represented the difference between the historic cost of assets and their current valuation, adjusted for differences arising on revaluations and for additions and disposals.

CAPITAL ADJUSTMENT ACCOUNT

	2008
	£'000
Balance at 1 April 2007	Nil
Transfer from Fixed Asset Restatement Account	12,441
Balance at 31 March 2008	12,441

12. CAPITAL REVALUATION ACCOUNT

	2008
	£'000
Balances at 1 April 2007 and 31 March 2008	21,706

This balance represents the original cost on vesting date (15 December 1994) of the Authority's investment in LondonWaste Ltd.

NOTES TO THE ACCOUNTS

13. USABLE CAPITAL RECEIPTS RESERVE

	2008
	£'000
	621
	621

This reserve represents unspent receipts from disposals of capital assets. Under the Local Government and Housing Act 1989 these receipts may be used to finance future capital expenditure or transferred to constituent councils. No decision has been made on the use of this resource.

14. EARMARKED RESERVES

	2008
	£'000
Balance at 1 April 2007	1,320
Movement in year	(320)
	1,000
Balance at 31 March 2008	1,000

An earmarked reserve of £1,000,000 to fund future recycling initiatives was established in 1999/2000 following the receipt of a special dividend from LondonWaste Ltd. The Authority has previously agreed to supplement this with a sum equivalent to the interest on the balance held in the fund, however, at its meeting on 27 June 2007 the Authority decide to cease the contributions to the reserve and to return all such previous contributions to revenue in 2007/08.

15. CONTINGENT LIABILITIES

The Authority is currently in negotiations with the London Borough of Barnet in respect of the Authority's landholding in Tilling Road. Compensation of up to £300,000 may be payable.

The Authority is also about to commence discussions with its Landlord, Freightliner Heavy Haul Ltd in respect of a rent review notice that it has served on the Authority in March 2008 backdated to March 2003. In the absence of any previous notice from the Landlord the Authority has adopted a prudent approach by making reasonable budgetary provision in each financial year since 2002/03, including 2007/08. The Authority has treated the potential additional rent of £2.128m as a contingent liability.

16. RELATED PARTY TRANSACTIONS

A number of transactions with related parties are disclosed elsewhere in the accounts.

The London Borough of Camden acts as lead borough to the Authority for the provision of the Clerk, Financial Adviser and Legal Adviser. In 2007/8 Camden paid £6.716m (2006/7: £6.535m) to the Authority in respect of non-household charges and its share of the levy. It received payments of £0.181m (2006/7: £0.909m) in respect of recycling credits and £0.400m (2006/7: £0.266m) for the provision of lead borough services. As at 31 March 2008 it held cash of £15.729m (2006/7: £14.180m) on behalf of the Authority.

The London Borough of Haringey acts as lead borough to the Authority for the provision of client services, technical and valuation advice. In 2007/8 Haringey paid £5.988m (2006/7: £5.640m) to the Authority in respect of non-household waste charges and share of levy. It received payment of £0.723m (2006/7: £0.723m) for the provision of lead borough services and no payments in respect of the recycling credits (2006/07: £0.900m).

17. LEASING AND HIRE PURCHASE

Included within operating expenditure for both 2006/7 and 2007/8 are rentals of £214,633 payable to Freightliner (previously English Welsh and Scottish Railways) in respect of the Hendon Solid Waste Transfer Station, Brent Terrace. The future rentals will be £214,633 per annum, subject to a rent review which has

NOTES TO THE ACCOUNTS

been outstanding since March 2003, i.e. a further £160,975 to termination of the lease plus rent reviews. The Landlord has served a notice to increase the rent to £670,000 per annum backdated to March 2003. See also note 15.

18. RECONCILIATION OF NET REVENUE EXPENDITURE TO NET CASH OUTFLOW FROM REVENUE ACTIVITIES

	2008	2007
	£	£
Net revenue expenditure/(income)	2,499	6,025
Increase in debtors	(268)	(177)
Decrease in creditors	(2,806)	2,807
	<hr/>	<hr/>
Net cash outflow/(inflow) from revenue activities	(575)	8,655
	<hr/> <hr/>	<hr/> <hr/>

19. ANALYSIS OF CHANGES IN NET FUNDS

	At beginning of period	Cash flows	At end of Year
	£	£	£
Funds lodged with Camden London Borough Council	14,180	1,549	15,729
	<hr/> <hr/>	<hr/> <hr/>	<hr/> <hr/>

20. EMPLOYEES

In 2007/08 the Authority paid £29,671 to the London Pension Fund Authority (£31,752 in 2006/7) in respect of the added years element of pensions paid to former retired employees. Future payments are estimated to be in the order of £0.543m. This figure has been calculated by the actuaries for the LPFA and represents a reduction compared with the previous year's estimate of scheme liabilities of £0.543m at 31 March 2008.

The figure is based on the following assumptions:

	2008	2007
CIPFA discount rate (in real terms)	3.2%	2.1%
Pension increases	3.6%	3.2%

In both years the actuary adopted a set of demographic assumptions consistent with those used for the formal funding valuation of the LPFA as at 31 March 2007 as included in the formal valuation report dated May 2008.

The Authority has recognised this liability in the balance sheet and established a pension reserve of an equal amount which is defrayed by the value of the payments made to the LPFA during the year, i.e. by means of a transfer to the pension reserve.

NOTES TO THE ACCOUNTS

21. NON-MONETARY CAPITAL RECEIPTS

In October 2003, the Authority signed a relocation agreement with Ashburton Properties Ltd (the company set up by the Arsenal Football Club for the purpose of this relocation) and also the corresponding relocation agreement with LondonWaste Ltd for relocation of the Authority's waste transfer station from Ashburton Grove to Hornsey Street. Subsequently, in July 2004, following the issue of an independent Engineer's Certificate of Practical Completion, the Authority entered into two 999-year leases for the new facility at Hornsey Street.

Ashburton Properties Ltd therefore provided the new waste facility at Hornsey Street in exchange for the Authority's land at Ashburton Grove. There has been no capital outlay for the Authority in this respect, however, for the purpose of recognising the new asset in the Authority's accounts the asset, which was valued at £12.440m at completion, is deemed to have been funded by a non-monetary capital receipt.

22. LANDFILL ALLOWANCE TRADING SCHEME (LATS)

The Waste and Emissions Trading Act 2003 places a duty on waste disposal authorities (WDAs) to reduce the amount of biodegradable municipal waste (BMW) that is disposed to landfill. The Act provides the legal framework for the Landfill Allowance Trading Scheme which commenced operation on 1 April 2005. The Government has allocated tradable landfill allowances to the Authority for the next 15 years. The Authority's allowances rise year-on-year until 2009/10 and then reduce year-on-year to 2019/20. If the Authority exceeds its allowance in any one year it faces the prospect of a fine of £150 for every additional tonne of biodegradable waste landfill. Conversely, if the Authority does not fully utilise its allowances in any one year it could either carry-forward surplus allowances to meet a shortfall in future years (there are restrictions), or, sell the surplus to another WDA which needs to buy additional allowances to cover its own shortfall.

In February 2006 CIPFA issued accounting guidance for the 2005/06 and subsequent accounting years. The 2007/08 Statement of Accounts therefore records the first three year's effect of LATS.

At the 31 March 2007 the Authority held 99,446 surplus allowances with a book value of £1.788m based upon the DEFRA/CIPFA 2006/07 valuation for allowances of £17.98 per allowance. The value of allowances in 2007/08 has been re-evaluated by DEFRA/CIPFA and a value of £5 per allowance has been determined for use in the 2007/08 accounts. This includes revaluing the surplus allowances held by the Authority at 31 March 2007. The latter, based upon a price of £5 per allowance, have been valued at £0.497m, i.e. a reduction of £1.291m. The latter has been reflected in the 2007/08 accounts.

Compared with the 2007/8 allowance allocation of 330,847 the Authority is currently estimated to have used 198,690 allowances during the year and this should result in the Authority holding an additional surplus of 132,157 allowances at 31 March 2008 with an additional book value of £0.661m, i.e. a total of £1.158m. The final figure will be determined during the Government's LATS verification period.

23. BIODEGRADABLE MUNICIPAL WASTE (BMW) DIVERSION REWARD SCHEME

At its budget meeting in February 2006 the Authority agreed the introduction of a BMW diversion reward scheme that would reward constituent councils for their increase in BMW diversion from landfill in 2007/08 compared with their actual tonnage diversion in 2004/5.

NOTES TO THE ACCOUNTS

24. REVALUATION RESERVE

The Balance Sheet figures fro 31 March 2007 have been adjusted from those included in the Statement of Accounts for 2006/07 to accommodate the implementation of the Revaluation Reserve. The Revaluation Reserve replaces the Fixed Asset Restatement Account (FARA). The credit balance of £12.441m on the FARA at 31 March 2007 has been written off to the new Capital Adjustment Account and the Revaluation Reserve has been included in the Balance Sheet with a Nil opening balance. There were no revaluation gains in 2007/08 and the balance therefore remains at Nil at 31 March 2008.

INTRODUCTION TO THE GROUP ACCOUNTS

The Authority has a 50% interest in the shares of LondonWaste Ltd. The interest arose as a result of the Acquisition and Collaboration Agreement between the Authority and Sita UK Ltd. The company was established as a consequence of the requirements of the Environmental Protection Act 1990 and was approved by the Secretary of State for the Environment.

ABOUT LONDONWASTE LTD

LondonWaste Ltd is a company limited by shares incorporated in England and Wales which operates on a stand-alone basis from the Authority. The board consists of three directors appointed by the NLWA ("A" directors), three directors appointed by Sita UK Ltd ("B" directors) and three executive directors appointed from the company's management ("C" directors), with the Chair of the board alternating between the A and B directors. Resolutions of the board must be approved by a majority of both the A and B directors.

The company's origins date back to the late 1960's when the Greater London Council (GLC) built the Edmonton Energy from Waste plant. The plant was operated by the GLC until 1986, when the body was abolished. Between 1986 and 1994 the Edmonton plant was owned and operated by the Authority. In 1994 the plant was transferred to a unique public/private partnership between the Authority and SITA, resulting in the formation of the Company. Today LondonWaste is one of the capital's largest waste management companies, handling over 1 million tonnes of waste a year. The company employs over 200 staff offering a wide range of services to their clients. The company is committed to providing economic, efficient, and environmentally responsible solutions for disposal and treatment of waste, and ultimately, to help preserve and protect the environment.

ABOUT THE GROUP ACCOUNTS

The CIPFA/LASAAC Code of Practice on Local Authority Accounting in the United Kingdom requires the primary statements of the Authority to be prepared on a stand-alone basis to enable the reader to understand how the Authority has accounted for their stewardship of the funds supplied by the government and local taxpayers through the charges made to and levies raised from the constituent boroughs.

Where an authority has a significant interest in the operation of a company the Code of Practice recognises that a full understanding of the overall picture of the authority's operations and resources can only be gained from summarised group accounts. Accordingly, the accounts of the Authority contain summarised group accounts which present the consolidated financial position of the Authority and its interest in LondonWaste Ltd.

In accordance with FRS 9 *Associates and joint ventures* and the Code of Practice, LondonWaste has been included on an equity accounting basis based on its accounts for the year ended 31 December 2007. Accordingly, these group accounts consist of:

- this introduction, explaining the basis on which the group accounts have been prepared;
- a group income and expenditure account which includes £2.194m (2006/7: net profit of £2.045m) which is the Authority's share of LondonWaste's profits for the year ended 31 December 2007;
- a group statement of movement in general fund balance;
- a statement of recognisable gains;
- a group balance sheet which includes the Authority's share of the accumulated reserves of LondonWaste of £7.347m (2005/6 £5.153m). However, as LondonWaste operates on a stand-alone basis, these reserves are not available to the Authority until a dividend is proposed by the directors of the company and approved by both shareholders;
- a group cash flow statement; and
- a group statement of total movement on reserves.

GROUP INCOME AND EXPENDITURE ACCOUNT

Year ended 31 March 2008

	Note	2008 £'000	2007 £'000
Gross expenditure		47,461	51,523

GROUP STATEMENT OF MOVEMENT IN GENERAL FUND BALANCE

Year ended 31 March 2008

The Income and Expenditure Account shows the Group's actual financial performance for the year. The General Fund Balance compares the Group's spending against the NLWA levy income that is raised for the year, taking into account the use of reserves built up in the past and contributions to reserves earmarked for future expenditure. This reconciliation statement summarises the difference between the outturn on the Income and Expenditure Account and the General Fund Balance.

	2008 £'000	2007 £'000
Deficit/(surplus) for the year on the Income and Expenditure Account	(605)	1,080
Net additional amount required by statute and non-statutory proper practices to be debited or credited to the General Fund Balance for the year	(920)	1,742
Change in General Fund Balance for the Year	<u>(1,525)</u>	<u>2,822</u>
General Fund Balance brought forward	<u>(10,273)</u>	<u>(13,095)</u>
General Fund Balances carried forward	<u><u>(11,798)</u></u>	<u><u>(10,273)</u></u>

GROUP STATEMENT OF TOTAL RECOGNISED GAINS AND LOSSES

Year ended 31 March 2008

This statement brings together all the recognised gains and losses of the Group for the financial year and shows the aggregate increase in net worth. In addition to the surplus generated on the Income and Expenditure Account it includes other gains and losses.

	2008	2007
	£'000	£'000

NOTES TO THE GROUP ACCOUNTS
Year ended 31 March 2008

1. SHARE OF OPERATING PROFIT OF JOINT VENTURE – LONDONWASTE LTD

The shares held by NLWA and Sita UK Ltd rank pari passu in all respects except in the case of dividends. Shares rank equally for dividend subject to the NLWA shareholder's ongoing commitment to make special contributions to the LondonWaste Limited Pension Scheme as long as the employees who transferred from the NLWA at vesting are still in service, such special contributions being deducted from the NLWA share of the dividend. In 2007 the value of this deduction is £0.100m. However, as no dividend has been paid for 2007 this amount will be deducted from a future dividend payment. Additionally, if the net after-tax profits of the company should exceed 12% of the company's turnover in any financial year after 31 December 1998 then a dividend will be declared in respect of at least an amount equal to the excess, and the shareholders shall be entitled to the excess dividend in the proportion 75% to the NLWA shares and 25% to the SITA shares. The latter did not arise in 2007.

The Company has not paid a dividend in 2007.

2. INVESTMENTS IN JOINT VENTURE – LONDONWASTE LTD

Summarised balance sheet of LondonWaste Ltd
