

Draft Outline of NLWA Members 'Workshop'

| <i>Content</i> | <i>Outcomes for Members</i> |
|---|--|
| Use of highly visual and interactive materials enabling understanding by self-discovery | Implications of the "Domino Effect" in the management of risk and how actively managing risk will assist individuals in day-to-day activities. |
| To link the management of risk with the potential for improvement in the Strategic environment. | That the management of risk provides the opportunity to enhance the effective use of often-limited resources. |
| Changing the perception that risk is a threat or a check on activity. Converting to a positive & "We can do" process. | Reassurance and confidence that they have the skills to manage risk within their area of responsibility. |
| What is risk? | The need for a standardised definition appropriate to the organisations culture. |
| What is the management of risk? | The management of risk has a positive affect on business effectiveness. |
| Demonstrate the process & benefits of Business Risk Assessments. | A key management skill essential for managing risk in the public sector. |
| The process of undertaking an actual Business Risk Assessment. | Horizons are broadened, taking the perspective of risk beyond the confines of Insurance and Health & Safety matters. |
| The Financial Impact of not Managing Risk. | The impact on the quality of service delivery & central finances. Importance of identifying the scope & scale of each event aiding prioritisation of activity. |
| The range of mechanisms for transferring risk. | Identification of the mechanisms. Managing risk is more appropriate than transfer and the skills are readily available within the organisation. |
| Ownership of risks | Understanding of the respective roles and responsibilities |
| Purpose of risk scoring | Evaluation of business risks |
