WP-FWPS-18-C01	21/09/2018	Is NLWA amenable to delivery of the workshops in schools targeting an audience of parents and children? We note that their presence of those under 18 should not be counted in the attendance figures.	24/09/2018	Workshops may take place in schools but they should be open to all residents in the borough and not only to parents of pupils that attend the particular school; additionally, the workshops should be promoted across the area, not only to the school catchment area. Workshop participants should only be adults; children may be present but their presence should not be counted in attendance figures.
WP-FWPS-18-C02	21/09/2018	Can NLWA elaborate on the nature of the short film they require? Is this to include actual video footage of the event/workshop, or would an edited montage of photos be sufficient? Is there a video from a similar project we could see to get a clear idea on the type of video required?	24/09/2018	NLWA requires that a short video is produced with footage from the high profile event and workshops. An edited montage of photos is not acceptable. An example of a video that was produced as part of the Pumpkin Rescue Festival, a previously arranged halloween themed series of food waste events, can be found at https://www.youtube.com/watch?v=N1PUfybEZzo
