# **North London Waste Authority**

## **Statement of Accounts for the year ended 31 March 2022**

### **STATEMENT OF RESPONSIBILITIES FOR THE STATEMENT OF ACCOUNTS**

#### **THE AUTHORITY'S RESPONSIBILITIES**

The Authority is required to:

- Make arrangements for the proper administration of its financial affairs and to secure that one of its officers has the responsibility for the administration of those affairs as the Chief Finance Officer. For the North London Waste Authority that officer is the Financial Adviser.
- Manage its affairs to secure economic, efficient and effective use of resources and safeguard its assets.
- Approve the Statement of Accounts.

#### **THE FINANCIAL ADVISER'S RESPONSIBILITIES**

The Financial Adviser is responsible for the preparation of the Authority's Statement of Accounts in accordance with proper practices as set out in the CIPFA/LASAAC Code of Practice on Local Authority Accounting in the United Kingdom (the Code of Practice). In preparing this Statement of Accounts, the Financial Adviser has:

- selected suitable accounting policies and then applied them consistently;
- made judgements and estimates that were reasonable and prudent;
- complied with the Code of Practice.
- kept proper accounting records which were up to date;
- taken reasonable steps for the prevention and detection of fraud and other irregularities;
- assessed the Authority's and the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern;
- used the going concern basis of accounting on the assumption that the functions of the Authority and the Group will continue in operational existence for the foreseeable future; and
- maintained such internal control as they determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error

#### **CERTIFICATION BY THE FINANCIAL ADVISER**

The accounts which follow have been prepared in accordance with the requirements of Regulation 9 of the Accounts and Audit Regulations 2015 issued under the Local Audit and Accountability Act 2014 and, except where specifically stated, in accordance with all recognised statutory requirements and codes of practice applicable to local authorities.

I certify that the statement of accounts gives a true and fair view of the financial position of the Authority and of the Group as at 31 March 2022 and the income and expenditure of the Authority and of the Group for the year then ended.

## Statement of Accounts for the year ended 31 March 2022

### NARRATIVE REPORT

#### INTRODUCTION

The purpose of this foreword is to provide an easily understandable guide to the most significant matters reported in the Authority's accounts which have been prepared in accordance with the *Code of Practice on Local Authority Accounting in the United Kingdom 2021/22* (The Code) and the *Guidance Notes for Practitioners* (both published by the Chartered Institute of Public Finance and Accountancy). The Code requires that five key statements are provided; they comprise:

**Movement in Reserves Statement:** This shows the movement in the year on the different reserves held by the Authority, analysed into 'usable reserves' (i.e. those that can be applied to fund expenditure) and other reserves. The Surplus or (Deficit) on the Provision of Services line shows the true economic cost of providing the Authority's services, more details of which are shown in the Comprehensive Income and Expenditure Statement.

**Comprehensive Income and Expenditure Statement:** This summarises the Authority's income and expenditure for the year in accordance with generally accepted accounting practices. Adjustments required to show the extent to which revenue balances have increased or decreased are shown in the Movement in Reserves Statement.

**Balance Sheet:** This shows the value at the balance sheet date of the assets and liabilities recognised by the Authority. The net assets of the Authority (assets less liabilities) are matched by the reserves held by the Authority. Reserves are reported in two categories. The first category of reserves is usable reserves, i.e. those reserves that the Authority may use to provide services, subject to the need to maintain a prudent level of reserves and any statutory limitations on their use (for example the Capital Receipts Reserve that may only be used to fund capital expenditure or repay debt). The second category of reserves is those that the Authority is not able to use to provide services. This category of reserves includes reserves that hold unrealised gains and losses (for example the Revaluation Reserve), where amounts would only become available to provide services if the assets are sold; and reserves that hold timing differences shown in the Movement in Reserves Statement line 'Adjustments between accounting basis and funding basis under regulations'.

**Cash Flow Statement:** This summarises the changes in cash and cash equivalents of the Authority during the reporting period. The statement shows how the Authority generates and uses cash and cash equivalents by classifying cash flows as operating, investing and financing activities. The amount of net cash flows arising from operating activities is a key indicator of the extent to which the operations of the Authority are funded by the levy on the NLWA constituent boroughs, charges for non-household waste and other miscellaneous income receipts. Investing activities represent the extent to which cash outflows have been made for resources which are intended to contribute to the Authority's future service delivery. Cash flows arising from financing activities are useful in predicting claims on future cash flows by providers of capital (i.e. borrowing) to the Authority.

**Expenditure and Funding Analysis:** This statement shows how annual expenditure is used and funded from resources (principally the levy) in comparison with those resources consumed in accordance with generally accepted accounting practices. Income and expenditure accounted for under generally accepted accounting practices is presented more fully in the Comprehensive Income and Expenditure Statement and supporting notes.

#### GROUP ACCOUNTS

The summarised group accounts show in aggregate the income and expenditure and assets, liabilities and reserves of the group comprising the Authority and the Authority's interest in LondonEnergy Ltd.

#### OPERATING PERFORMANCE

NLWA manages waste in line with the waste hierarchy to protect the environment and preserve resources for future generations. We work with our boroughs to deliver public-facing behaviour change programmes

### Statement of Accounts for the year ended 31 March 2022

to encourage waste prevention and recycling. We did fewer face-to-face activities due to COVID-19 restrictions, but our campaigns had a cumulative reach of more than 77million people.

We processed 113,685 tonnes of mixed dry recycling tonnages from households. This is slightly lower than the 117,728 tonnes processed in 2020/21, but higher than pre-pandemic tonnages. The provisional household recycling rate is 28.7%, which is an increase on the previous year's 28.5%.

2020/21 saw a reduction in garden and food waste as some boroughs temporarily suspended organic waste collections to safeguard Residual and Dry Mixed Recycling collections. This was reversed in 2021/22 where the tonnage increased to 47,672 from 42,460 tonnes in 2020/21, which is even higher than tonnages collected pre-pandemic. Given the relatively low proportion of homes with gardens and the high proportion of flats, volumes of organic waste in north London are lower than many other authorities.

This year we became the first Authority in the UK to start recycling polystyrene. In June 2021 we launched a scheme to recycle mattresses and by the end of March recycled 67,000 mattresses, saving 1,527 tonnes from being treated as residual waste.

Reuse and Recycling Centres operated with a booking system which was introduced the previous year. This enabled facilities to be run safely and residents to be confident that they could maintain social distancing and use the sites without queueing. The booking system will be kept under review in 2022/23. 38,607 tonnes of material were collected at our Reuse and Recycling Centres, of which 72% was reused, recycled or composted.

We dealt with 573,359 tonnes of residual waste, a slight increase on the previous year (570,394) , but lower than pre-pandemic level. A damaged turbine at the aging energy from waste facility meant it was not able to operate to its full planned capacity. This resulted in 29,491 tonnes of waste going to landfill compared with 25,172 tonnes in 2020/21.

#### **NORTH LONDON HEAT AND POWER PROJECT**

To help tackle the climate emergency and to prevent rubbish going to landfill we are delivering the largest project in our history. The 50-year-old energy from waste plant at Edmonton, which is reaching the end of its operational life, is being replaced by the greenest Energy Recovery Facility in the country.

We are building a resource recovery facility (RRF) to maximise recycling from bulky waste and a new public reuse and recycling centre. The new EcoPark House will provide a visitor centre and community space for local residents and home for the Edmonton Sea Cadets. Significant progress was made on these facilities this year, and they are on course to be complete in 2023.

In December 2021 the Authority decided to award the contract to Acciona SA for the design and build of the new energy recovery facility. The contract was signed in January 2022. This followed a thorough review of the business case which assessed that it represented the most cost effective and environmentally responsible solution for dealing with north London's residual waste. Members noted that the facility would have the flexibility to deal with a range of waste volumes and therefore if waste reduced, it would not prevent the facility working. Members also noted that the facility would have tighter emissions control than any facilities in the UK and would be linked with a district heating network which would ensure that the power generated from the facility would be used as efficiently as possible.

Building the Energy Recovery Facility is creating hundreds of skilled jobs, including 180 training placements and 90 apprenticeships, bringing life-changing career opportunities for local people. These new positions are in addition to the hundreds of jobs, apprenticeships and training placement already created to take the project to this point.

Community engagement on the project continued with the Community Liaison Group meetings and increased communications to increase awareness of the project and its benefits. Newsletters were sent to 28,000 residents in the wards around the site and

briefings were held with community groups. Social media campaigns reached 518,000 people.

Further information about the key developments, activities and trends in the Authority's management of north London's waste are available on NLWA website:

<https://www.nlwa.gov.uk/sites/default/files/2022-06/03%20NLWA%20Annual%20Report%202021-22%20%28Signed%29.pdf>

# **North London Waste Authority**

## **Statement of Accounts for the year ended 31 March 2022**

### **FINANCIAL PERFORMANCE**

The Authority agreed its 2021/22 budget at a level that needed to be sufficiently robust to meet the costs of its day-to-day statutory waste obligations but also sufficient to fund the costs of the NLHPP. In doing so, the Authority was aware, as in past years, that if favourable circumstances arose during the year some revenue balances might become available to help fund future budgets.

The Authority plans to finance the cost of the NLHPP through borrowing. To date, the Authority has borrowed £100m from the Public Works Loan Board (PWLb), part of HM Treasury, in February 2020 at the Local Infrastructure Rate. Since then the Authority has borrowed a further 670m from the PWLB at the certainty rate. In addition, the Authority has also taken a short-term loan from LondonEnergy Ltd of £8m as part of the long-term lease of the EcoPark in November 2020.

In February 2022, the Authority was advised that revenue balances at 31 March 2022 were forecast to be £9.266m. Since then, lower volumes of residual tonnage were delivered during the period of reinstated national Covid-19 restrictions in early 2021, Increased income from recyclates, the effects of increases in wholesale electricity prices and non-use of contingency have resulted in revenue balances at 31 March 2022 of £15.251m.

Compared to the accounts for 2020/21, the net cost of services reduced by £4.562m (7.3%). This can largely be attributed to the increased wholesale price of electricity generated by LondonEnergy Ltd and favourable market prices for the onward sale of recyclates.

### ANNUAL GOVERNANCE STATEMENT FOR NORTH LONDON WASTE AUTHORITY

#### 1. Scope of Responsibility

North London Waste Authority is responsible for ensuring that its business is conducted in accordance with the law and proper standards, and that public money is safeguarded and properly accounted for, and used economically, efficiently and effectively. The Authority also has a duty under the Local Government Act 1999 to make arrangements to secure continuous improvement in the way in which its functions are exercised, having regard to a combination of economy, efficiency and effectiveness.

In discharging this overall responsibility, The Authority is also responsible for putting in place proper arrangements for governance of its affairs, facilitating the effective exercise of its functions, including arrangements for the management of risk.

#### 2. The Purpose of the System of Internal Control

The governance framework comprises the systems and processes, culture and values, by which the Authority is directed and controlled. It enables the Authority to monitor the achievement of its strategic objectives and to consider whether those objectives have led to the delivery of appropriate, cost-effective services.

The system of internal control is a significant part of the framework and is designed to manage risk to a reasonable level. It cannot eliminate all risk of failure to achieve policies, aims and objectives and can therefore only provide reasonable and not absolute assurance of effectiveness. The system of internal control is based on an ongoing process designed to identify and prioritise the risks to the achievement of the Authority's policies, aims and objectives, to evaluate the likelihood of those risks being realised and the impact should they be realised, and to manage them efficiently, effectively and economically.

The governance framework has been in place within the North London Waste Authority for the year ended 31 March 2022 and up to the date of approval of the annual report and statement of accounts.

#### 3. The Governance Framework

The key elements of the governance framework in which the Authority functions can be summarised as follows:

- The Authority has a clearly defined set of objectives in terms of service delivery, and these are reflected in its contract with LondonEnergy Ltd. and other key contracts.
- Policy and decision-making are managed and controlled within a strong well-established framework. The Authority's standing orders set out in detail how the Authority operates, how decisions are made and the procedures to be followed to ensure efficiency, transparency and accountability. Political and management control is exercised through Authority Members and Advisers and Officers, whose roles are defined in Standing Orders and who work to defined and established processes.
- Compliance with policies, laws and regulations is dealt with through a range of written rules and procedures which are regularly reviewed and updated. These include Standing Orders relating to the Authority, Standing Orders relating to Committees, delegations to Officers, and Contract Standing Orders. The Authority also follows the London Borough of Camden Financial Standing Orders.
- Central to the Authority's achievement of its objectives is an effective risk management regime. In addition to regular reviews of detailed risk registers by the Authority's management team, the registers are considered annually by the Members' Finance Working Group. Informed by the annual review, a report is presented to the Authority outlining developments in the Authority's key corporate risks. The report also includes an up-to-date high level risk register.

## Statement of Accounts for the year ended 31 March 2022

- The Authority is also able to benefit from the rules and procedures set in place by its Lead Borough. Officer responsibilities and actions are controlled through Schemes of Officer Delegation.
- The effective and efficient use of resources and the securing of continuous improvement are achieved through a range of review processes and are integral to the Joint Waste Strategy, Residual Waste Reduction Plan 2020 to 2022 and the development of the next generation of waste infrastructure and services for north London. A new Joint Waste Strategy is being prepared for consideration by Members along with Constituent Boroughs (Barnet, Camden, Enfield, Hackney, Haringey, Islington, Waltham Forest) which will focus on activities to move all waste up the waste hierarchy.
- The financial management of the Authority is organised through a wide range of well-established processes and procedures which deliver strong financial control arrangements. The Authority has in place a detailed strategic budget planning process which is supported by the London Borough of Camden's comprehensive Financial Standing Orders. Members receive and consider detailed financial information on a regular basis, and this facilitates the political decision making process. The process is further supported by the work of the Members' Finance Working Group.
- Other features of the financial control environment include the annual production and review of a medium-term financial forecast. The Authority also benefits from the Internal Audit Shared Service of the London Boroughs of Camden and Islington which provides assurances to management that the London Borough of Camden's – and therefore the NLWA's – control systems are adequate, effective and operating as intended and investigates identified or suspected cases of fraud/irregularity.
- Performance management within the Authority is considered through a range of review arrangements including external/internal audit reviews and annual reports.

### 4. Covid-19 Response

The impact of the Covid-19 pandemic was less severe than in 2020/21. The Reuse and Recycling centres remained open to residents throughout the year. The booking system remained in place to ensure orderly access to the sites for the safety benefit of members of the public and staff.

It is yet to become clear how far the pandemic has influenced long term trends on matters such as volumes and types of waste. The Authority keeps data under review to assess any emerging trends, and as part of the Authority's Medium-Term Financial Strategy, assumptions regarding costs, income, financing and investments will continue to be based on the latest information.

### 5. Review of Effectiveness

North London Waste Authority has responsibility for conducting, at least annually, a review of the effectiveness of its governance framework including the system of internal control. The review of the effectiveness of the system of internal control is a significant part of the framework and is informed by the work of the internal auditors and the executive managers within the Authority who have responsibility for the development, maintenance and ongoing assurance in respect of the internal control environment covering their individual areas of responsibility. This is also supported by reviews conducted by the external auditors and other review agencies. In addition, Authority meetings receive reports on key aspects of the day-to-day work of the Authority and the Authority's financial health.

The Public Sector Internal Audit Standards require that the Head of Internal Audit provide an annual audit opinion that can be used by the organisation to inform its governance statement. The wider content of this annual governance statement indicates an adequate level of assurance from the Authority's governance framework. With regard to the annual opinion of the Head of Internal Audit (HIA), the HIA is satisfied that the work undertaken by Internal Audit during 2021/22 has enabled the HIA to form a reasonable conclusion that Camden's – and therefore NLWA's control framework, specifically with regard to key financial systems, is adequate.

## Statement of Accounts for the year ended 31 March 2022

The Audit Committee, the Programme Committee with regard to the NLHPP and the Members' Finance Working Group, provide an effective means of enabling detailed review and examination by Members of the Authority's financial and risk management issues.

The Authority was further supported by the work of the Members' Recycling Working Group. The Authority continues to have in place strong and effective working arrangements with its constituent boroughs.

As services are provided through both the Lead Borough Camden and also Haringey, the Authority has also benefited from reviews undertaken by those authorities in providing corporate and service-based assurance on the overall system of internal control in operation.

### 6. Significant Governance Issues

A key element of the annual governance review process is to identify any significant internal control issues. The Authority has adopted the approach recommended by the CIPFA, which has identified what may be considered generally as a significant issue. These include:

- The issue has seriously prejudiced or prevented achievement of a principal objective;
- The issue has resulted in a need to seek additional funding to allow it to be resolved;
- The issue has resulted in significant diversion of resources from another aspect of the business;
- The issue has led to a material impact on the accounts;
- The Audit Committee, or equivalent, has advised that it should be considered significant for this purpose, or
- The Camden and Islington Shared Head of Internal Audit has reported on it as significant in the annual opinion on the internal control environment.

No significant governance issues have been identified during the year. Work has been undertaken however to ensure that the Authority's governance arrangements continue to follow best practice:

- The Members' Finance Working Group reviewed the Authority's risk register, and the conclusions were reported to the Authority in April 2021 and again in March 2022. A high-level risk register for London Energy Ltd, containing the organisations key risks, was included so that the risks for the company could be taken into account by the Authority as shareholder.
- The Authority signed an updated treasury management agreement with the London Borough of Camden. The revised agreement ensures that it still reflects the requirements of both parties and reflects the need to manage significant cash balances during the construction of the new Energy Recovery Facility.
- On 16 December 2021 deputations were made at the North London Waste Authority Meeting concerning the NLHPP. Responses were provided and the Authority continues to engage with the general public, including north London residents to inform them about the case for the project, its costs, benefits and value.
- The Authority has reviewed its Standing Orders during the year. In October 2021, the Authority approved a change to the Financial Standing orders to provide additional governance for borrowings of £100m or above. In March 2022, the Authority approved amendments to contract standing orders and amended the 'Officer' roles to add the Head of Strategic Communications.
- At the Authority meeting in March 2022, The Authority 'opted-in' to Public Sector Audit Appointments Ltd. national procurement for external audit contracts to begin from April 2023.

### 7. Matters for Future Action

There is a continuing need to keep the Authority's governance and control arrangements under review and to take action where appropriate. This will include:

## North London Waste Authority

### Statement of Accounts for the year ended 31 March 2022

- Keeping under review the governance arrangements for LondonEnergy Ltd, including the preparation for the next operating contract from 2025.
- Training, where appropriate, to Members and officers, and an ongoing review of the over-arching and supporting risk registers so that the Authority will be able to track and accurately manage the identified risks associated with all aspects of its work.
- Implementation of any recommendations proposed by internal audit reviews and the development and completion of a further internal work programme in 2022/23.

#### 8. Signed Agreement

We have been advised of the arrangements that are in place to ensure that an effective system of governance exists in the Authority and of the plan to further review and enhance our governance arrangements in the coming year. We are satisfied with these steps and will monitor their implementation and operation as part of our next review.

---

Councillor Richard Olszewski  
Chair of the Audit Committee

### ACCOUNTING POLICIES

The accounts have been prepared in accordance with the CIPFA/LASAAC Code of Practice on Local Authority Accounting in the United Kingdom 2021/22, which has been developed under the oversight of the Financial Reporting Advisory Board.

#### Accruals

In general, the accounts have been prepared on a basis that accrues and accounts for income and expenditure in the period to which they relate. At year-end, allowance is made in the accounts for expenditure and income not paid or received by 31 March, either on the basis of invoices received or a best estimate of the income or expenditure which should be accrued in that year's accounts.

#### Cash and cash equivalents

The Authority's cash and treasury management requirements are undertaken on its behalf by the London Borough of Camden; it therefore has no cash or cash equivalents on its own account. Instead, the Authority maintains an inter-authority account with Camden. The Authority receives interest on its Sterling balances equivalent to the average return achieved on Camden's own investment activity for the year. Foreign currency balances are held separately and the Authority receives interest on the balance at the prevailing rate.

#### Capital receipts

Capital receipts are credited to the Usable Capital Receipts Reserve when received. They are only available to fund future capital expenditure or to repay debt.

#### Leases

Expenditure on operating leases is charged to the income and expenditure account in the period to which it relates.

#### Employee Benefits

Benefits payable during employment

Short-term employee benefits are those due to be settled within 12 months of the year-end. They include such benefits as wages and salaries, paid annual leave and paid sick leave, bonuses and non-monetary benefits for current employees and are recognised as an expense for services in the year in which employees render service to the Authority. IFRS requires the Authority to consider accruing for the cost of the leave entitlement earned by employees but not taken before the year-end which employees can carry forward into the next financial year. The Authority has assessed the value of carried forward leave and has concluded that it is not significant and therefore no accrual has been made. However, non-consolidated performance related pay paid to staff in 2022/23 in respect of their work in 2021/22 has been accrued.

#### Post-employment benefits

In December 1994 all operational staff of the Authority transferred to LondonEnergy Ltd. However, the Authority continues to be responsible for the payment of employer borne pension costs (annual compensation) of former retired employees. The Authority has previously decided that this should continue to be paid on a pay-as-you-go basis. However, in accordance with International Accounting Standard 19 – Employee Benefits (IAS 19), the liability has been reflected in the Authority's Balance Sheet.

Employer-borne pension costs attributable to staff employed by the London Borough of Camden for work performed on behalf of the Authority are included in the support service recharges to the Authority.

#### Non-Current Assets

Land and buildings shown in the balance sheet represent the residual non-operational assets held by the Authority. Depreciation is not charged on non-operational assets. Fixed assets are valued at five-yearly intervals in accordance with the Statements of Asset Valuation Practice and Guidance Notes issued by the Royal Institution of Chartered Surveyors, although material changes to asset valuations are adjusted in the interim period, as and when they occur.

# **North London Waste Authority**

## **Statement of Accounts for the year ended 31 March 2022**

### **Investments and Property**

The Authority's investment in LondonEnergy Ltd is held at cost. The land at Pinkham Way was valued at 31 March 2018, but the land valuation was updated to reflect market conditions at 31 March 2022. The Hornsey Street property was valued at 31 March 2018. The land at EcoPark was valued at 31 March 2022.

### **Charges to Revenue in respect of Capital Assets**

The comprehensive Income and Expenditure Statement is charged with a capital charge for capital assets used in the provision of services. The charge consists of the annual provision for:

- Depreciation attributable to the assets used
- Impairment

The Authority is not required to include depreciation or impairment when setting its levy for the year but is required to make an annual provision from revenue to contribute towards the reduction in its overall borrowing requirement equal to an amount calculated on a prudent basis determined in accordance with statutory guidance known as the Minimum Revenue Provision. The Minimum Revenue Provision is a proper charge to the Authority but does not appear in the Comprehensive Income and Expenditure Statement. Such amounts shall be transferred from the Capital Adjustment Account and reported in the Movement in Reserves Statement. The amounts of Minimum Revenue Provision to be charged for the year are set out in regulations and guidance.

Depreciation and impairment are therefore replaced by revenue provision in the Movement in Reserves Statement by way of an adjusting transaction with the Capital Adjustment Account for the difference between the two.

Capital charges have a neutral impact on the amount to be raised by the levy as they are reversed out in the Movement in Reserves Statement and replaced by the Statutory Provision for Debt repayment.

### **Prior Year Adjustments**

No prior year adjustments have been included in the financial statements.

### **Reserves**

The Authority may set aside specific amounts as reserves for future policy purposes or to cover contingencies. Reserves are created by appropriating amounts out of the General Fund Balance in the Movement in Reserves Statement. When expenditure to be financed from a reserve is incurred, it is charged to the appropriate service in that year to score against the surplus or deficit on the provision of services in the Comprehensive Income and Expenditure Statement. The reserve is then appropriated back into the General Fund Balance in the Movement in Reserves Statement so that there is no net cost to the Authority for that year.

Certain reserves are kept to manage the accounting processes for non-current assets, and do not represent usable resources for the Authority.

### **Group accounts**

The Authority has prepared group accounts to provide greater transparency and understanding of the Authority's shareholding in LondonEnergy Ltd. These are presented as supplementary information to the primary financial statements in accordance with the Code. More details are given in the introduction to the group accounts.

# **North London Waste Authority**

## **Statement of Accounts for the year ended 31 March 2022**

### **Members' allowances**

Members of the Authority receive allowances from the borough that they represent. No allowances are paid by the Authority.

### **Value Added Tax**

VAT payable is included as an expense only to the extent that it is not recoverable from Her Majesty's Revenue and Customs. VAT receivable is excluded from income.

### **Financial Instruments**

#### **Financial Liabilities**

Financial Liabilities are recognised on the Balance Sheet when the Authority becomes a party to the contractual provisions of a financial instrument and are initially measured at fair value and carried at their amortised cost. Annual charges to the Financing and Investment Income and Expenditure line in the Comprehensive Income and Expenditure Statement for the interest payable are based on the carrying amount of the liability, multiplied by the effective rate of interest for the instrument. The effective interest rate is the rate that exactly discounts estimated future cash payments over the life of the instrument to the amount at which it was initially recognised.

All of the Authority's borrowing is with the Public Works Loan Board and LondonEnergy Ltd. The amount presented in the balance sheet is the outstanding principal payable (plus accrued interest); and interest charged to the Comprehensive Income and Expenditure Statement is the amount payable for the year according to the loan agreement.

#### **Financial Assets**

The Authority's financial assets comprises of cash balances held with the London Borough of Camden and interest receivable. Annual credits to the Financing and Investment Income and Expenditure line in the Comprehensive Income and Expenditure Statement for interest receivable are based on the carrying amount of the asset multiplied by the effective rate of interest for the instrument. This means that the amount presented in the Balance Sheet is the cash balance (plus accrued interest) and interest credited to the Comprehensive Income and Expenditure Statement is the amount receivable for the year.

### **Financial Instrument Risk**

The Authority has reviewed the nature and extent of the risks associated with its financial instruments and has concluded that:

In respect of its short-term borrowings from LondonEnergy Ltd and long-term borrowings from the Public Works Loans Board it is not exposed to market risk since the interest rates are fixed for the duration of the loans. Liquidity risk in that the Authority may not have the funds to meet its commitments to make future payments is considered to be very low since the Authority has access to borrow from the PWLB. Additionally, the Authority is required to achieve a balanced budget which ensures that sufficient monies are raised to cover annual expenditure. There is no significant risk that the Authority will be unable to raise finance to meet its commitments.

The Authority's cash balances are managed through the treasury management arrangements operated by the London Borough of Camden. Camden's Treasury Management policy requires it to place deposits only with a limited number of high quality institutions whose credit ratings are independently assessed.

Its main sources of income are its constituent boroughs which are required to pay a levy and charges for the management of non-household and some types of household waste. Accordingly, the risk of non-payment is considered to be extremely low and no provision for bad or doubtful debts is required.

# **North London Waste Authority**

## **Statement of Accounts for the year ended 31 March 2022**

Small amounts of income come from other commercial sources. The risk to the Authority of non-payment of this income is considered to be low. Accordingly, the Authority does not make a provision for bad or doubtful debts in respect of this income stream.

### **Contingent Liabilities**

Contingent liabilities are possible obligations that may require a payment or a transfer of economic benefit but for which there is no certainty regarding amount or date of settlement. They are disclosed in the notes to the accounts and accruals are not made for contingent liabilities and no adjustments are included within the accounting statements.

### **CRITICAL JUDGEMENTS IN APPLYING ACCOUNTING POLICIES**

In applying the accounting policies set out above, the Authority has to make certain judgements about complex transactions or those involving uncertainty about future events.

Although none of the Authority's expenditure is funded directly by central government, almost all of its income is derived from its constituent boroughs for whom central government funding is a significant element of their income. Although mindful of the uncertainty about future levels of funding to the boroughs from central government, the Authority has determined that this uncertainty is not sufficient to indicate that the Authority's assets might be impaired or facilities closed to reduce levels of service provision. The nature of the Authority's statutory responsibilities for waste disposal and its demand led nature of its services provide very limited scope to reduce service levels.

### **ASSUMPTIONS MADE ABOUT THE FUTURE AND OTHER MAJOR SOURCES OF ESTIMATION UNCERTAINTY**

The Statement of Accounts contains estimated figures based on assumptions made by the Authority about the future, or that are otherwise uncertain. Estimates are made by taking into account historical experience, current trends and other relevant factors. The Authority has assessed the risk that items in its Balance Sheet being materially different from the assumptions and estimates as being low but recognises that uncertainty cannot be entirely eliminated. Areas of risk are as follows:

The Authority's makes monthly on account payments to LondonEnergy Ltd for Landfill Tax and Electricity Income Claim liabilities based on best available estimates. The Authority makes an assessment at 31 March of the extent to which it has under or overpaid during the year and the balance owed to or by the Authority is reflected in the Balance Sheet. Settlement of these sums is subject to formal agreement with LondonEnergy Ltd. The agreed sum may differ from that included in the Balance Sheet but this difference is likely not to be significant.

All staff currently undertaking work for the Authority are employed by the London Borough of Camden and all related pension assets and liabilities are reflected LB Camden's Balance Sheet. The Authority does however have a liability in respect of pensions for 4 formerly directly employed but now retired staff. Payment of pensions to these individuals is made on the Authority's behalf by the London Pension Fund Authority. An assessment of the assets and liabilities is undertaken annually by Barnett Waddingham who in their calculations must make assumptions about inflation, mortality and returns on pension fund assets.

## NOTES TO THE ACCOUNTS

### 1. EVENTS AFTER THE BALANCE SHEET DATE

This Statement of Accounts was authorised by the Financial Adviser on xx [Month] 202x. Events taking place after this date are not reflected in the financial statements or notes. Where events taking place before this date provided information about conditions existing at 31 March 2022, the figures in the financial statements and notes have been adjusted in all material respects to reflect the impact of this information.

The £8.6m loan from LondonEnergy Ltd. Was repaid on 8 April 2022.

On 19 January 2023, the Authority borrowed a further £200m from the Public Works Loan Board for the North London Heat and Power Project. This consisted of 1 loan with a length of 43.5 years.

### 2. ADDITIONAL INFORMATION SUPPORTING THE EXPENDITURE AND FUNDING ANALYSIS

The Expenditure and Funding Analysis shows how the income and expenditure reported to the Authority at meetings for decision making purposes translates to the Comprehensive Income and Expenditure Statement in the final accounts for generally accepted accounting practices. To achieve this, a number of adjustments are made and these are identified below:

| <b>Adjustments between accounting basis and funding basis under regulations</b>         | <b>2021</b>    | <b>2022</b>    |
|---|----------------|----------------|
|   | <b>£'000</b>   | <b>£'000</b>   |
| Statutory provision for the financing of capital investment – Minimum Revenue Provision | (4,913)        | (5,263)        |
| Property, plant and equipment - Depreciation  | 804            | 804            |
| Pension asset – Actuarial (gain)/loss   | 15             | (4)            |
| Net interest on defined benefit liability   | 5              | 4              |
| Employer's pension contributions paid in year   | (30)           | (30)           |
| Balance at 31 March   | <u>(4,119)</u> | <u>(4,489)</u> |

### 3. NON-HOUSEHOLD AND CHARGEABLE HOUSEHOLD WASTE

The Authority operates separate charging arrangements for non-household waste and certain categories of household waste in accordance with s52 (9) of the Environmental Protection Act 1990. As a consequence, only the cost of treating non chargeable household waste is funded from the levy.

Constituent councils make monthly payments on account to the Authority based on estimated levels of non-household and chargeable household waste. Following completion of the audit of accounts an additional amount is charged or overpayment repaid based on actual tonnage levels and the actual cost of treatment.

### 4. LEVY

The levy on constituent boroughs of £57.798m was agreed at the Authority Meeting on 11 February 2021 and represents, after allowance for the use of revenue balances, the net cost of meeting the Authority's statutory responsibility for the disposal of household waste and operating Re-use and Recycling Centres that have been transferred to the Authority. The levy was apportioned in accordance with the menu price based arrangements agreed by constituent councils in January 2016.

**Statement of Accounts for the year ended 31 March 2022**

Depreciation is provided for on property plant and equipment by the allocation of depreciable amounts over their useful lives. Exceptions to this are land which does not have a determinable useful life and assets under construction which are not yet available for use.

It is the Authority's policy to revalue assets every five years on the basis of open market value in accordance with the Statements of Asset Valuation Practice and Guidance Notes issued by the Royal Institution of Chartered Surveyors.

For the years that formal valuations are not undertaken, the Authority conducts a review to determine whether its assets useful lives have changed and that values have been impaired as a result. The review also considers market values where appropriate.

The Authority revalued Hornsey Street Waste Transfer station on 31 March 2018. It was valued at £15.9m, an increase of £0.7m. As a result of the re-valuation, the plant and Buildings at Hornsey Street is being depreciated over 20 years (from 1 April 2018) and all historic depreciation at 31 March 2018 has been removed, matched by a corresponding charge to the Capital Adjustment Account (note 9).

The Authority also owns land at Pinkham Way and this was valued on 31 March 2018 at £14.1m, an increase of £3.0m on the previous valuation from 2013. In line with the policy to review the value of the Authority's assets for impairment or a change in value, the market value of Pinkham Way was reviewed as at 31 March 2022, based on market evidence from the land value included in the March 2022 valuation of the EcoPark. The carrying value of Pinkham Way was increased by £5.1m to £19.2m as at March 2021 and by a further £9.6m to £28.8m at March 2022. The change to the value of Pinkham Way was not based a full valuation and does not take into account changes in planning designation or the environmental conditions at the site. A full valuation of the site will be undertaken as at 31 March 2023, in line with the Authority's policy to revalue every 5 years.

In December 2020, the Authority agreed a 999-year lease for 73% of the area of the EcoPark from LondonEnergy Ltd for £17.3m (including stamp duty). The Authority commissioned chartered surveyors Savills to value the lease as at 31 March 2022 and concluded that the fair value was £121.2m. The Authority has an agreement in place with LondonEnergy Ltd to lease the remaining 27% of the land when the existing Energy from Waste facility at Edmonton EcoPark is taken out of service.

**6. CAPITAL COMMITMENTS**

At 31 March 2022, the Authority has entered into a number of contracts for the construction or enhancement of Property, Plant and Equipment in 2022/23 and future years. The major commitments are:

| <b>Contract description</b>                 | <b>£'000</b>   |
|---|----------------|
| EcoPark South                               | 47,054         |
| Northern Area Clearance - Demolitions Works | 1,526          |
| Energy Recovery Facility                    | 799,340        |
|   | <u>847,920</u> |

**7. INVESTMENTS – LONDONENERGY LTD**

|                     | <b>31 Mar<br/>2021<br/>£'000</b> | <b>31 Mar<br/>2022<br/>£'000</b> |
|---------------------|----------------------------------|----------------------------------|
| Balance at 31 March | 119,392                          | <u>119,392</u>                   |

# North London Waste Authority

## Statement of Accounts for the year ended 31 March 2022

Until 22 December 2009 LondonEnergy Ltd (formerly LondonWaste Ltd) operated as a joint venture company with Sita UK Ltd and the Authority each holding 50% of the share capital. On 22 December 2009 the Authority purchased the shares held by Sita UK Ltd at a gross cost of £97.686m (including stamp duty) under a deferred payment arrangement. Payment took place on 12 April 2010.

Details of the net assets and results of the company are given in Note 2 to the group accounts.

### 8. BORROWING

Details of borrowings at 31 March 2022 are set out below:

#### Short Term and Long Term Creditors

| Repayment Date                  | Sum Borrowed |
|---------------------------------|--------------|
| <b>Public Works Loan Board:</b> |              |
| 16-Jul-22                       | £10,000,000  |
| 16-Jul-24                       | £10,000,000  |
| 12-Apr-26                       | £10,000,000  |
| 12-Apr-28                       | £10,000,000  |
| 24-Jun-36                       | £54,000,000  |
| 24-Aug-36                       | £41,000,000  |
| 24-Jun-46                       | £64,000,000  |
| 24-Aug-46                       | £54,000,000  |
| 18-Sep-52                       | £140,000,000 |
| 24-Jun-56                       | £75,000,000  |
| 24-Aug-56                       | £69,000,000  |
| 26-Feb-60                       | £100,000,000 |
| 24-Jun-66                       | £87,000,000  |
| 24-Aug-66                       | £86,000,000  |

#### LondonEnergy Ltd:

|           |            |
|-----------|------------|
| 08-Apr-22 | £8,626,913 |
|-----------|------------|

The fair value of each loan is determined by calculating the Net Present Value of future cash flows, which provides an estimate of the value of payments in the future in today's terms. The discount rate used was the new borrowing rate at 31 March 2022. Since the carrying value included in the balance sheet includes accrued interest, this is also included in the fair value calculations, which are as follows:

|  | 31 Mar 21                |                     | 31 Mar 22                |                     |
|--|--------------------------|---------------------|--------------------------|---------------------|
|  | Carrying Amount<br>£'000 | Fair Value<br>£'000 | Carrying Amount<br>£'000 | Fair Value<br>£'000 |
| Sum Borrowed - £818,626,913<br>(2020/21: £288,626,913) | 289,239                  | 276,695             | 821,056                  | 719,347             |

All loans are at a fixed rates of interest. The total fair value is lower than the carrying amount as the overall interest rate payable is lower than rates available for similar loans at the balance sheet date.

## Statement of Accounts for the year ended 31 March 2022

### 9. CAPITAL ADJUSTMENT ACCOUNT

The Capital Adjustment Account shows the resources used to finance capital expenditure and the historic cost of acquiring and enhancing non-current assets.

|                                 | 2021<br>£'000 | 2022<br>£'000 |
|---------------------------------|---------------|---------------|
| Balance brought forward         | 59,994        | 64,103        |
| Minimum Revenue Provision (MRP) | 4,913         | 5,263         |
| Depreciation                    | (804)         | (803)         |
| Revaluation                     | -             | -             |
| Balance at 31 March             | <u>64,103</u> | <u>68,563</u> |

### 10. REVALUATION ACCOUNT

The Revaluation Account records gains and losses arising from the revaluation of non-current assets.

|   | 2021<br>£'000 | 2022<br>£'000  |
|---|---------------|----------------|
| Balance brought forward                             | 9,638         | 66,267         |
| Revaluation of Property, Plant and Equipment Assets | 56,629        | 64,314         |
| Revaluation on Currency Euro account                |               | (1,958)        |
| Balance at 31 March                                 | <u>66,267</u> | <u>128,623</u> |

### 11. CAPITAL REVALUATION ACCOUNT

This balance represents the original cost on vesting date (15 December 1994) of the Authority's investment in LondonEnergy Ltd.

|                     | 2021<br>£'000 | 2022<br>£'000 |
|---------------------|---------------|---------------|
| Balance at 31 March | <u>21,706</u> | <u>21,706</u> |

### 12. USABLE CAPITAL RECEIPTS RESERVE

This reserve represents unspent receipts from disposals of capital assets and can be used only to fund capital expenditure or repay debt.

|                     | 2021<br>£'000 | 2022<br>£'000 |
|---------------------|---------------|---------------|
| Balance at 31 March | <u>1,439</u>  | <u>1,439</u>  |

## Statement of Accounts for the year ended 31 March 2022

### 13. RELATED PARTIES

The Authority is required to disclose material transactions with related parties – bodies or individuals that have the potential to control or influence the Authority or to be controlled or influenced by the Authority. Disclosure of these transactions allows readers to assess the extent to which the Authority might have been constrained in its ability to operate independently or might have secured the ability to limit another party's ability to bargain freely.

#### Central Government

Central government has effective control over the general operations of the Authority in that it is responsible for providing the statutory framework within which the Authority operates.

#### Members

Each of the seven constituent boroughs of the Authority appoints two of their Members to the Authority. Transactions between the Authority and its constituent boroughs, principally the Levy and charges for the treatment of non-household waste, are detailed elsewhere in the accounts. Apart from this dual role, no Member of the Authority has reported that he/she or members of their families and households exercised any control or influence on any of the companies or other bodies with which the Authority transacted in 2021/22.

#### Officers

No officer or member of their family or household, whether working wholly for the Authority or in an advisory role has indicated that they or members of their families and households exercised any control or influence on any of the companies or other bodies with which the Authority transacted in 2021/22.

#### Other Public Bodies

A number of transactions with related parties are disclosed elsewhere in the accounts. Details of each constituent borough's levy and charges for the treatment of non-household and chargeable household waste are shown in notes 3 and 4.

The Authority operates through a lead borough arrangement with its constituent boroughs. Charges are made by the constituent boroughs in providing the following services.

#### Camden

Managing Director  
Clerk and committee services  
External relations  
Financial Adviser and financial services  
Internal Audit  
Legal Adviser and legal and governance services  
Operations (waste strategy, contracts management)  
Personnel services  
Planning and technical solutions

#### Haringey

Operational support services

#### Enfield

Environmental adviser

In 2021/22 the Authority paid Camden £2.840m (2019/20: £2.696m) for the provision of lead borough services. On 31 March 2022 Camden held cash and cash equivalents of £607.437m (31 March 2020: £162.686m) on behalf of the Authority.

The London Borough of Haringey provides Operational support services to the Authority. In 2021/22 the Authority paid Haringey £0.177m for these services (2019/20: £0.153m).

# North London Waste Authority

## Statement of Accounts for the year ended 31 March 2022

To the extent that monies paid to boroughs for services are paid on by those boroughs to their senior officers, these sums are reflected in Note 19.

### Entities Controlled by the Authority

At 31 March 2022, the Authority owned 100% (31 March 2021: 100%) of the shares in LondonEnergy Ltd. In 2021/22 the Authority paid LondonEnergy Ltd £52.406m (2020/21: £45.420m) for waste disposal and transport services. The Company paid no dividend to the Authority in 2021/22 (2020/21: £nil). The Authority's accounts include a creditor of £5.251m (2020/21 £7.877m) in respect of the services provided to the Authority by the Company and a debtor of £2.006m (2020/21 £0.432m) in respect of income due to the Authority from the Company.

On 20 January 2021, Cllr Loakes, Cllr Rennison, Cllr Zinkin, and the Authority's Managing Director and Head of Legal and Governance were appointed as non-executive directors on LondonEnergy Ltd board.

### Amounts Written Off

No related party debts were written off in 2021/22 (2020/21: £nil) and no provisions for doubtful debts were raised (2020/21: £nil).

## 14. ADJUSTMENT TO NET SURPLUS FOR NON-CASH MOVEMENTS

The surplus or deficit on the provision of services in the cash flow statement has been adjusted for the following non-cash movements

|  | 2021    | 2022    |
|--|---------|---------|
|  | £'000   | £'000   |
| <b>Cash flows from operation activities include:</b> |         |         |
| Depreciation   | (804)   | (804)   |
| Movement in pension liability                        | 25      | 26      |
| (Increase)/decrease in creditors                     | (1,861) | (4,579) |
| Increase / (decrease) in debtors                     | 1,943   | 832     |
| Balance at 31 March                                  | (697)   | (4,525) |

## 15 ANALYSIS OF CHANGE IN CASH AND CASH EQUIVALENTS

|   | At 31<br>March<br>2021<br>£'000 | Cash<br>flows<br>£'000 | At 31<br>March<br>2022<br>£'000 |
|---|---------------------------------|------------------------|---------------------------------|
| Cash and cash equivalents held<br>at 31 March | 162,686                         | 444,751                | 607,437                         |

During the year to 31 March 2022, the Authority secured borrowing of £530m from HM Treasury, via the Public Works Loan Board to fund the works of the capital NLHPP project.

## 16. FINANCIAL INSTRUMENTS

### Cash on Deposit with London Borough of Camden

The cash and cash equivalents carried on the balance sheet are held by London Borough of Camden on behalf of the Authority. This can be further subdivided into the following categories of financial

# North London Waste Authority

## Statement of Accounts for the year ended 31 March 2022

instruments. The Authority's funds are held in interest bearing accounts and are therefore shown as being held in short term investments and money market funds.

### Market Risk

The Authority is exposed to market risk in terms of the value that an instrument will fluctuate due to changes in market factors. These factors will have an impact on the overall performance of these instruments, the risk of which can be reduced by diversification into assets that are not correlated with the market.

The Authority holds part of the Money Market Funds in Euro which will be used to pay for the construction of the process equipment within the Energy Recovery Facility being built as part of the North London Heat and Power Project. As the Euro are held exclusively for this use and the work is capital expenditure, any unrealised gain or loss at the balance sheet date has been captured as part of the unusable reserves.

|                        | 2021    | 2022    |
|------------------------|---------|---------|
|                        | £'000   | £'000   |
| Short Term Investments | 28,974  | 124,512 |
| Money Market Fund      | 133,712 | 482,925 |
| Balance at 31 March    | 162,686 | 607,437 |

### Financial Liabilities

|                                      | 2021            |            | 2022            |            |
|--------------------------------------|-----------------|------------|-----------------|------------|
|                                      | Carrying amount | Fair Value | Carrying amount | Fair Value |
|                                      | £'000           | £'000      | £'000           | £'000      |
| Public Works Loan Board (PWLb) Loans | 280,569         | 268,025    | 812,418         | 710,709    |
| LondonEnergy Ltd Loan                | 8,670           | 8,670      | 8,638           | 8,638      |
| Short term creditors                 | 25,130          | 25,130     | 27,892          | 27,892     |
|                                      | 314,369         | 301,825    | 848,948         | 747,239    |

## 17. DEFINED BENEFIT PENSION SCHEME

The Authority does not have any directly employed staff. The payroll and pension arrangements for staff wholly employed on authority business are administered by the London Borough of Camden and all transactions, assets and liabilities relating to these staff are included in the accounts of Camden's pension scheme. Similarly, the pension arrangements of the advisers to the Authority are managed by the respective adviser's own authority.

The Authority does however have obligations and liabilities in respect of the added years' element of pensions paid to retired former employees who were directly employed by the Authority prior to the transfer of staff to LondonEnergy Ltd (formerly LondonWaste Ltd) in December 1994. In 2021/22 the Authority paid £30,193 to the London Pension Fund Authority (£34,416 in 2020/21) in respect of these employees. The Authority's future liability as at 31 March 2022 has been calculated by Barnett Waddingham, the actuaries for the LPFA as being £0.209m (£0.239m at 31 March 2021).

# North London Waste Authority

## Statement of Accounts for the year ended 31 March 2022

The figure is based on the following assumptions:

|                                | 2019/20 | 2020/21 |
|--------------------------------|---------|---------|
| Return on assets discount rate | 1.70%   | 2.60%   |
| Pension increases              | 2.80%   | 3.55%   |
| Inflation (CPI)                | 3.55%   | 3.55%   |

For 2021/22 the actuary adopted a set of demographic assumptions consistent with those used for the formal funding valuation of the LPFA as at 31 March 2019 (2020/21: valuation as at 31 March 2019). The Authority has recognised this liability in the balance sheet and established a pension reserve of an equal amount which is defrayed by the value of the payments made to the LPFA during the year, i.e. by means of a transfer to the pension reserve.

### 18. NON-MONETARY CAPITAL RECEIPTS

In October 2003, the Authority signed a relocation agreement with Ashburton Properties Ltd (the company set up by the Arsenal Football Club for the purpose of this relocation) and also the corresponding relocation agreement with LondonEnergy Ltd for relocation of the Authority's waste transfer station from Ashburton Grove to Hornsey Street. Subsequently, in July 2004, following the issue of an independent Engineer's Certificate of Practical Completion, the Authority entered into two 999-year leases for the new facility at Hornsey Street.

Ashburton Properties Ltd therefore provided the new waste facility at Hornsey Street in exchange for the Authority's land at Ashburton Grove. There has been no capital outlay for the Authority in this respect, however, for the purpose of recognising the new asset in the Authority's accounts, the asset, which was originally valued at £12.440m at completion, is deemed to have been funded by a non-monetary capital receipt. As at 31 March 2022 the property is carried on the balance sheet at £12.720m (£13.515m at 31 March 2021).

### 19. OFFICERS' REMUNERATION

The Authority does not have any directly employed staff. Instead, its staff are employed by the London Borough of Camden. The Statement of Arrangements between the Authority and the London Borough of Camden sets out the services that will be provided to the Authority including the provision of the Clerk and other key Adviser roles. The cost of these services is recovered from the Authority by Camden. Details of staff employed wholly on NLWA business receiving annual remuneration in excess of £50,000 are shown below.

#### Senior Officers with Remuneration over £150,000

|                   |         | Salary  | Variable Pay<br>(Note 1) | Employers<br>Pension<br>Contribution | Total   |
|-------------------|---------|---------|--------------------------|--------------------------------------|---------|
|                   |         | £       | £                        | £                                    | £       |
| Managing Director | 2020/21 | 149,662 | 5,986                    | 51,053                               | 206,701 |
| (Martin Capstick) | 2021/22 | 152,281 | 7,484                    | 53,707                               | 213,472 |

| Head of Strategy & Services 2 (Note 3)    | 2020/21 | -       | -             | -                 | -       |
|   | 2021/22 | 62,886  | 1,630         | 21,891            | 86,407  |
| Head of Legal & Governance                | 2020/21 | 84,424  | 1,688         | 28,454            | 114,566 |
|   | 2021/22 | 86,003  | -             | 29,499            | 115,502 |
| Commercial Lead                           | 2020/21 | 92,640  | 1,688         | 30,032            | 124,360 |
|   | 2021/22 | 94,251  | 1,009         | 31,598            | 126,858 |
| Head of Finance                           | 2020/21 | 84,424  | -             | 28,113            | 112,537 |
|   | 2021/22 | 86,003  | 844           | 29,665            | 116,512 |
| Head of Strategic Communications (Note 4) | 2020/21 | -       | -             | -                 | -       |
|   | 2021/22 | 31,291  | 1,300         | 10,989            | 43,580  |

Note 1 – Variable pay is a non-consolidated payment based on performance.

Note 2 – The Head of Strategy and Services (1) resigned on 06 December 2020.

Note 3 – The Head of Strategy and Services (2) commenced duties on 28 June 2021.

Note 4 – The Head of Strategic Communications commenced duties on 11 October 2021.

The Authority's other employees receiving more than £50,000 remuneration for the year (excluding employers pension contribution) were paid in the following bands:

| Salary range       | 2020/21 | 2021/22 |
|--------------------|---------|---------|
| £50,000 to £54,999 | -       | 1       |
| £55,000 to £59,999 | -       | 2       |
| £60,000 to £64,999 | 2       | -       |
| £65,000 to £69,999 | -       | -       |
| £70,000 to £74,999 | -       | -       |
| £75,000 to £79,999 | -       | -       |
| £80,000 to £84,999 | 1       | 1       |
| Total              | 3       | 4       |

# North London Waste Authority

## Statement of Accounts for the year ended 31 March 2022

### Advisers

The Statement of Arrangements also provides for various Adviser roles. These roles are undertaken by specific posts within each Lead Borough. Advisers receive an honorarium the cost of which is recharged to the Authority as follows:

|  |         | Variable Pay<br>(Note 1)<br>£ | Employers<br>Pension<br>Contribution<br>£ | Total<br>£ |
|--|---------|-------------------------------|---|------------|
| Clerk – Chief Executive (Camden)   | 2020/21 | 9,350                         | 3,114                                     | 12,464     |
|  | 2021/22 | 9,350                         | 3,132                                     | 12,482     |

|  | 2021/22 | 7,723                         | 2,587                                     | 10,310     |

### 20. EXTERNAL AUDIT COSTS

Mazars LLP were appointed auditors to the Authority from 2018/19. The Authority has incurred the following costs in relation to the audit of the statutory accounts. Mazars LLP have not provided any additional services to the authority in either 2020/21 or 2021/22. No other audit fees were incurred in 2020/21 or 2021/22.

|                                 | 2020/21<br>£ | 2021/22<br>£ |
|---------------------------------|--------------|--------------|
| Audit of the Statutory Accounts | 14,068       | 14,068       |

### INTRODUCTION TO THE GROUP ACCOUNTS

Until 22 December 2009 the Authority held a 50% interest in the shares of LondonEnergy Ltd (formerly LondonWaste Ltd). The interest arose as a result of the Acquisition and Collaboration Agreement between the Authority and Sita UK Ltd. The company was established as a means of complying with the requirements of the Environmental Protection Act 1990. However, on 22 December 2009 the Authority purchased the shares held by its joint venture partner and LondonEnergy Ltd became wholly owned by the Authority but continues to operate at arm-length with its own board of directors and management team.

#### ABOUT LONDONENERGY LTD

LondonEnergy Ltd is a company limited by shares incorporated in England and Wales. The company's origins date back to the late 1960's when the Greater London Council (GLC) built the Edmonton Energy from Waste plant. The plant was operated by the GLC until 1986, when the body was abolished. Between 1986 and 1994 the Edmonton plant was owned and operated by the Authority. In 1994 the plant was transferred to a unique public/private partnership between the Authority and SITA, resulting in the formation of the company. Today LondonEnergy Ltd has returned to NLWA ownership and as well as handling the Authority's waste, also holds a contract to treat some waste from Hertfordshire County Council. The company employs approximately 330 staff offering a wide range of services. The company is committed to providing economic, efficient, and environmentally responsible solutions for disposal and treatment of waste, and ultimately, to help preserve and protect the environment.

#### ABOUT THE GROUP ACCOUNTS

The CIPFA/LASAAC Code of Practice on Local Authority Accounting in the United Kingdom requires the primary statements of the Authority to be prepared on a stand-alone basis to enable the reader to understand how the Authority has accounted for its stewardship of the funds supplied by local taxpayers through the charges made to and levies raised from the constituent boroughs.

Where an Authority has a significant interest in the operation of a company the Code of Practice recognises that a full understanding of the overall picture of the Authority's operations and resources can only be gained from summarised group accounts. Accordingly, the accounts of the Authority contain summarised group accounts which present the consolidated financial position of the Authority and its interest in LondonEnergy Ltd.

The Authority's accounting year ends on 31 March and LondonEnergy Ltd has an accounting year end of 31 December. The Code permits the consolidation of accounting statements of different dates so long as the two dates are not more than three months apart and that accounting statements of a date that isn't 31 March are adjusted for the effects of significant transactions and events that occurred between the two dates. No adjustments were found to be necessary to the financial statements of LondonEnergy Ltd at 31 December 2021.

In accordance with IFRS 3 *Business Combinations* and the Code of Practice, LondonEnergy has been included on a line by line basis. Accordingly, these group accounts consist of:

- this introduction, explaining the basis on which the group accounts have been prepared;
- a group expenditure and funding analysis;
- a group movement in reserves statement;
- a group comprehensive income and expenditure statement;
- a group balance sheet;
- a group cash flow statement.

Statement of Accounts for the year ended 31 March 2022

**Statement of Accounts for the year ended 31 March 2022**

**3. SHARE PREMIUM RESERVE**

The share premium reserve represented the Authority's 50% share of LondonEnergy Limited's share premium account.

**4. NOTES TO THE GROUP ACCOUNTS**

In addition to the notes and accounting policies to the Authority single-entity accounts, the following disclosures are made in respect of LondonEnergy Ltd.

**Accounting Policies**

**4.1 Basis of consolidation**

The consolidated financial statements include the financial statements of the Company and its subsidiary undertakings made up to 31 March 2022. The acquisition method of accounting has been adopted. Under this method, the results of subsidiary undertakings acquired or disposed of in the year are included in the comprehensive income and expenditure statement from the date of acquisition or up to the date of disposal.

**4.2 Valuation of Investments**

Investments in unlisted Company shares, whose market value can be reliably determined, are remeasured to market value at each balance sheet date. Gains and losses on remeasurement are recognised in the Consolidated Income and Expenditure Statement for the period. Where market value cannot be reliably determined, such investments are stated at historic cost less impairment.

**4.3 Goodwill**

Purchased goodwill (representing the excess of the fair value of the consideration given over the fair value of the separable net assets acquired) arising on consolidation in respect of acquisitions has been capitalised.

**4.4 Inventories**

Inventories are valued at the lower of cost and net realisable value after making due allowance for obsolete and slow moving stocks.

**4.5 Deferred Taxation**

Full provision is made for deferred tax assets and liabilities arising from all timing differences between recognition of gains and losses in the financial statements and recognition in the tax computation.

A net deferred tax asset is recognised only if it can be regarded as likely that there will be suitable taxable profits from which the future reversal of the underlying timing difference can be deducted.

Deferred tax assets and liabilities are calculated at the tax rates expected to be effective at the time the timing differences are expected to reverse.

**4.6 Pensions**

LondonEnergy Ltd operates a defined benefits pension scheme and the pension charge represents the amounts payable by the company to the fund in respect of the year.

The pension charge is based on the latest actuarial valuation.

For the defined benefit scheme, the company recognises the net assets or liabilities of the scheme in the balance sheet, net of any related deferred tax liability or asset. The changes in scheme assets and liabilities, based on actuarial advice are as follows:

- a. The current service cost based on the most recent actuarial valuation is deducted in arriving at operating profit.

## Statement of Accounts for the year ended 31 March 2022

- b. The interest cost, based on the present value of the scheme liabilities and the discount rate at the beginning of the year and amended for changes in scheme liabilities during the year, is included as interest.
- c. The expected return on scheme assets, based on the fair value of scheme assets and expected rates of return at the beginning of the year and amended for changes in the scheme assets during the year, is included as interest.
- d. Actuarial gains and losses, representing differences between the expected return and actual return on scheme assets, differences between the actuarial assumptions underlying the scheme liabilities and actual experience during the year, and changes in actuarial assumptions, are recognised in the movement in reserves statement.
- e. Past service costs are spread evenly over the period in which the increases in benefit vest and are deducted in arriving at operating profit. If an increase in benefits vests immediately, the cost is recognised immediately.
- f. Gains and losses arising from settlements or curtailments not covered by actuarial assumptions, are included in operating profit.

### 4.7 Non-Current Assets and Depreciation

The non-current assets of LondonEnergy Ltd are included in its financial statements at depreciated historical cost. This is not in accordance with The Code which permits this method of depreciation only for small value assets with short lives and where no other approach is practicable. Moreover, the Company values its freehold land at historic cost. Accordingly, the Authority commissioned Savills chartered surveyors to value the Company's land, buildings, plant and machinery at 31 March on an existing use value basis. The conclusions from Savills' investigations are reflected in the Group financial statements and in the table below. Vehicles and office equipment were outside the scope of Savills' work and are included at depreciated historical cost. The depreciation rates used for these assets are within the range 12.5% and 25%.

The non-current assets of the North London Waste Authority are as set out in Authority's statements and notes. The Authority has two depreciable assets – a waste transfer station and yard at Hornsey Street in the London Borough of Islington and a water pumping station in Edmonton in the London Borough of Enfield. For these assets, depreciation is calculated on a straight-line basis over 20 years and 9 years, respectively. This is in accordance with advice sought from the valuer. The Authority also has a land holding at Pinkham Way in the London Borough of Haringey. Land is not depreciated. All assets are valued on a five-year cycle and impairment reviews are undertaken in the interim years.

**4.8 Long Term Investments**

On 31 December 2021, LondonEnergy Ltd invested in Lime Street Insurance Guernsey PCC Ltd, a protected cell company. It acquired 7,000,000 non-voting cell shares of £1 each.

## Statement of Accounts for the year ended 31 March 2022

### 4.9 Accounting for Capital Grants

In 2005 the Authority was successful in securing a capital grant from the London Recycling Fund to assist with the funding of a new In-vessel Composting Facility (IVC) at LondonEnergy Ltd.'s Eco-Park. £1.7m was paid over to LondonEnergy Ltd in March 2005 which was offset by the receipt of a grant from the London Recycling Fund. LondonEnergy Ltd constructed the IVC facility at the Eco-Park and has been using it to process compostable waste delivered by the Authority since 2005.

Under The Code of Practice, where there were no conditions attached or where the recipient has complied with any conditions, the grant must be recognised immediately in the Comprehensive Income and Expenditure Statement. If the expenditure that the grant was intended to fund has been incurred the income must be reversed out of General Fund balances via the Movement in reserves Statement.

The policy of LondonEnergy Ltd with regard to this grant has been to amortise the grant over the 15 year expected life of the IVC facility. Accordingly, each year, the Company credits its Profit and Loss Account and the un-amortised balance are retained as a creditor. In December 2020, the remaining balance £85k of the IVC grant was fully amortised.

This accounting treatment is not compliant with the Code. The Authority therefore, as part of the group accounts consolidation process, has changed the accounting treatment of the grant to reflect the provisions of the Code.

### 4.10 Acquisition Note

On 22 December 2009, the Authority acquired the remaining 50% of its joint venture, LondonEnergy Limited. LondonEnergy Limited is fully consolidated in these financial statements. The acquisition has been accounted for using acquisition accounting. The goodwill arising at acquisition of £50.213m was capitalised.

The 2009 accounts for LondonEnergy Ltd showed that the Company's net assets (EcoPark) were valued at £46.327m at 31 December 2009. The Code of Practice requires the Authority to take into account the estimated fair value of LondonEnergy Ltd at the balance sheet date and therefore in preparing its 2009/10 accounts the Authority determined this to be £94.577m after a positive adjustment of £48.250m to the Company's non-current assets.

In December 2020, NLWA entered into a 999-year lease with LondonEnergy Ltd for 73% of the area of the EcoPark for £17.3m (including stamp duty).

For the purposes of ensuring that the 2021/22 group accounts were prepared in accordance with International Financial Reporting Standards (IFRS), the Authority commissioned chartered surveyors Savills to value the EcoPark land, buildings and plant and machinery at 31 March 2022. Savills concluded that the fair value of the remaining 23% of the EcoPark belonging to LondonEnergy Ltd. was £69.670m ( 2020/21: £32.160m), an increase of £47.164m. This adjustment has been reflected in the group balance sheet.

The increase in the net assets on acquisition of LondonEnergy Ltd gave rise to an increase in value which is recorded in an Acquisition Revaluation Reserve in the sum of £24.125m and included in the 2009/10 group accounts. Annual valuations undertaken since then to March 2022 has decreased this reserve by £1.086m to £23.039m.
